

BEGIN ROUND-UP OF MEXICANS IN EL PASO

ARREST MORE THAN SCORE OF VILLA OFFICERS

SOLDIERS, POLICEMEN AND CITIZENS JOIN IN THE HUNT

Intend to Drive All Villa Adherents from Border City--Many Fights Take Place and All the Ambulances and Doctors Available Are Kept Busy--Report Cattle Raisers and Miners Are Organizing Band to Invade Mexico.

BULLETIN.

EL PASO, Texas, Jan. 13.—Martial law has been declared in El Paso.

General John J. Pershing commanding at Fort Bliss ordered four companies of the Sixteenth Infantry to take charge in the downtown district after it was apparent the police were powerless to check the crowds. Lines of troops four abreast swung thru the streets and sentries were placed on the corners and in the squares.

EL PASO, Texas, Jan. 13.—Soldiers, policemen and many citizens, angered by the massacre of a score of American mining men in Mexico, tonight began a round up of Mexicans in El Paso with the intention of driving all adherents of Francisco Villa from the city. Many fights took place and all the ambulances and doctors available were kept busy.

Force Many to Leave.
More than a score of former Villa officers were arrested on charges of vagrancy and forced to take a train to California tonight. In this assignment were Miguel Diaz Lombardo, once foreign minister in Villa's cabinet, and Generals Manuel Banda and Juan Prieto.

United States soldiers to the number of fifty, aided by city policemen, started thru the streets tonight, announcing that they were looking for Mexicans. News of the roundup spread and most of the Mexicans in the path of the Americans took to their heels. One street was soon cleared of undesirable Mexicans.

Many Mexicans, however, resisted expulsion and knives were flashed freely. Calls for ambulances and surgeons kept the police stations busy. Many of the fights were between American soldiers and Mexicans who refused to be rushed, according to police reports.

Cattlemen Organizing Band?
While the disorders were proceeding, reports reached the police that American cattle raisers had miners were holding a secret meeting to organize an armed band to invade Mexico and seek revenge for the American miners who were slain last Monday by order of a Villa chief. In pursuance of a threat made by Villa when General Carranza's government was recognized by the United States, that he would avenge himself on Americans.

The police sent out extra men to keep the crowds moving, but the officers were not able to control the rioters for a time.

Squads of men were sent to various hotels and elsewhere to warn Mexicans to depart before the rioters came.

Gives Personal Assurances.
WASHINGTON, Jan. 13.—Eliseo Arredondo, ambassador-designate of the de facto government of Mexico, called at the state department today and personally assured Secretary Lansing that Carranza troops had been dispatched to western Chihuahua with orders to kill or capture all the bandits concerned in the slaying of American citizens. He said every Carranza soldier in Northern Mexico would be pressed into service if necessary to achieve this purpose.

States Americans Were Warned.
In a statement later Mr. Arredondo declared that the men who lost their lives had attempted to reach their place of business before complete control of the region had been accomplished by the Carranza forces. He said they had been given permission to pass thru the Carranza lines, although Americans had been warned to keep out of territory in which guerrilla warfare was in progress.

Mr. Arredondo went to the state department at the close of a day devoted largely in official circles here to the Mexican situation.

President Wilson conferred with Secretary Lansing and discussed the subject with callers. He is under-

flood to have told some of the latter that Chihuahua mine employees had been specifically warned not to go into Mexico.

During the day Secretary Lansing made it clear that the United States would expect from the de facto government evidence that the murderers had been punished and that if proper steps were not taken an issue might arise between the United States and the Carranza administration.

Adds Another Warning.
The secretary added another warning to Americans in Mexico to leave districts "where there is revolutionary trouble."

As to the responsibility of the Carranza government for the murders, Secretary Lansing declared nothing would be determined until all facts were at hand, gathered from every reliable source.

In congress again today intense indignation at the latest outrage was reflected. Senator Lewis, Democrat, introduced a resolution to authorize the sending of armed forces of the United States into Mexico. He asked that it be over for the present, and this was done.

Representative Hayden of Texas, Democrat declared in the house that the time had come for Pan-American action to restore peace in Mexico. He insisted that only summary execution of the murderers would satisfy the border states. Representative Moss of West Virginia, Republican introduced a resolution proposing to send sufficient force of the army to Mexico to capture the murderers and the dispatch of warship to Mexican waters to co-operate with the army and remain there until American citizens were safe.

May Withdraw American Consuls.
Secretary Lansing explained that his conference with the president was almost solely to discuss the gaining of accurate information there are no American consuls near the point where the massacre occurred and the secretary indicated that all American consuls might be withdrawn from Durango, Chihuahua and Sonora states until order is restored. It was decided at the conference that information regarding the murders would be taken from any reliable source including the de facto government.

Secretary Lansing made it clear that there was nothing to indicate that the Carranza authorities had not done everything within their power to apprehend the bandits and that so far all the steps taken appeared to be satisfactory. The United States he said will expect that the bandits be punished and evidence of the punishment must be forthcoming. Upon the developments depend the nature of the action the United States will require. There is said to be no proof that General Villa actually made threats against all Americans.

As for the responsibility of Carranza for massacre it remains for a question of fact to be determined.

No News Regarding Troop Train.
The department has no information regarding a derailed troop train reported to have caused the train carrying the Americans to stop, giving the bandits an opportunity to enter the coaches.

In regard to the warning reiterated by the secretary, it was said that the state department would not point at this time what parts of Mexico were considered safe and what parts were considered unsafe. The secretary considers that Carranza authorities should have warned Americans out of territory considered dangerous.

Mr. Arredondo's statement that Americans had been warned to keep out of dangerous districts was made at the conclusion of his conference with Secretary Lansing. He said he had received no direct messages from General Carranza and that what information he had was furnished by the state department and by the Carranza consul at El Paso.

"I have not the least doubt," he

(Continued on Page 4.)

GENERAL HUERTA DIES IN EL PASO

Aged Mexican Dictator Expires from Sclerosis of the Liver

PROFESSIONAL SOLDIER

Madero, One of His Brothers and Suarez Were Assassinated Soon After He Took Office

SEIZED AMERICAN SAILORS

EL PASO, Tex., Jan. 13.—General Victoriano Huerta, former provisional president of Mexico, died at his home here at 8:35 o'clock tonight.

General Huerta, who succeeded General Francisco I. Madero, in executive power in Mexico City and later left Mexico, died of sclerosis of the liver. He was surrounded by his family when the end came. His death was not unexpected.

Funeral arrangements are to be made tomorrow it was announced at his residence tonight. It is believed an effort will be made to arrange his burial in Mexico.

Was a Professional Soldier.
General Victoriano Huerta was a professional soldier, and as such he had, up to the overthrow of President Francisco Madero, been known for his loyal support of the existing governments. He fought loyally for President Porfirio Diaz until his fall, and when Diaz was no longer chief executive, Huerta fought for Francisco de la Barra, the Provisional President. After Francisco Madero was elected Huerta found it to be his duty to support one who had so long fought as a rebel. His loyalty was not challenged until the Felix Diaz revolution in Mexico City in February, 1913, when the Madero government was completely overthrown and Huerta himself elevated to the presidency.

Huerta devoted himself to the military career at a very early age. Born at Chihuahua in 1854, he entered the military academy of Chapultepec at the age of 17 and passed thru the full course to graduation in 1875, when he was commissioned second lieutenant of engineers. During his academic term he was known for his predilection for scientific studies, particularly astronomy and mathematics.

When Porfirio Diaz began his reorganization of the Mexican army Huerta was promoted Captain of Engineers and while holding this rank devised the plan for a Mexican General Staff Corps. He was an active member of the Military Map Commission created to draft a staff map of Mexico on a large scale and he had charge of all the astronomical work of the commission, leading exploring and surveying parties over the wildest regions of the republic.

During the ensuing years Huerta saw much active service. In 1891 he left the staff and took command of the infantry in the campaign against the Yaqui Indians. After this campaign he was again put in charge of the General Staff's topographical work in Sonora. He participated in subsequent Yaqui campaigns and also in the campaign in Yucatan against the Maya Indians. As a reward for his Indian service Huerta was given the rank of Brigadier-General and once more detailed to the general staff.

Huerta commanded all the detached government forces in the state of Guerrero at the beginning of the Madero revolution. When Madero acceded to the presidency, General Huerta was sent back to Mexico with a force to put down the Zapata rebellion. As a result of ill-feeling growing out of this campaign Huerta was recalled. Subsequently he led the army sent against Orozco and was in command at the battle of Bachimba. For this service he was promoted to major-general. He was then recalled to the capital and given leave of absence because of an affection of the eyes, and thus did not take part in the suppression of the first uprising led by General Felix Diaz in October, 1912.

Severely Criticized.
In the second Felix Diaz revolution, which resulted in the overthrow of the Madero government, Huerta was immediately called to active command as the senior ranking general then in the capital. He escorted Madero from Chapultepec Castle to the Palace on the first of the ten days' fighting and was placed in entire command of the forces of the government. He directed the government troops during all the subsequent fighting, and the conduct of these operations led to severe criticism on the part of Madero's friends. It was charged that he did

TELEGRAPHIC BRIEFS

WASHINGTON, Jan. 13.—Representative Sabath of Illinois, today introduced an inheritance bill to affect all estates above \$10,000. The next revenue, he estimates, would be \$50,000,000 annually.

WASHINGTON, Jan. 13.—President Wilson today nominated the following postmasters: Elmer Lummis, Quincy, Ill.; Richard J. Simmons, Macomb, Ill.

WASHINGTON, Jan. 13.—The Italian liner Giuseppe Verdi will be permitted to clear from New York with her two guns still mounted. The state department had given its assent on assurances that the pieces are to be used only for defense.

LONDON, Jan. 13.—Many Chinese revolutionists were killed and captured in a series of bloody engagements on Jan. 6, 7, and 8 in the districts of Tamsui, Potong, Yen-tzuwo and Pokio, according to information received from the Canton government by the British authorities at Hong Kong and forwarded by Reuter's Hong Kong correspondent.

SPRINGFIELD, Ill., Jan. 13.—A salary measure advancing the presidential primary election in Illinois, from April 11 to Feb. 29th, the same date as the aldermanic primary, went down to defeat in the State senate today by a vote of 17 to five.

Had the bill been enacted Illinois would have been the first state to hold a presidential primary.

POLICE INSPECTOR NARRATES NEGROES' ALLEGED CONFESSIONS

Witness Denies He Used Any Third Degree Methods to Get Men to Make the Statements.

Providence, R. I., Jan. 13.—The alleged confessions of the two negroes, C. Victor Brown and Henry H. Spellman, who with Mrs. Elizabeth P. Mohr, are on trial charged with the murder of Mrs. Mohr's husband, Dr. C. Franklin Mohr, were narrated to the jury today by William F. O'Neill, chief inspector of police.

Argument arose between counsel over a question by Mr. Lewis for the defense as to whether the written memoranda purporting to be confessions of Brown and Spellman, contained an admission by either that he shot Dr. Mohr. The court even- tually admitted the question, and Inspector O'Neill replied that there was not such an admission in the written statements.

The witness denied positively that he used any third degree methods, scolded, on Brown and Spellman, to get them to make the statements. On cross-examination by John J. Fitzgerald, counsel for Mrs. Mohr, Inspector O'Neill did not deny that George W. Rooks, brother-in-law of Miss Burger, Dr. Mohr's secretary, was the first to mention the name of Mrs. Mohr after the arrest of Heals on the night of the murder. It was not true the inspector declared that from that moment he tried to impress his theory that Mrs. Mohr was behind the murder, on all those who were arrested in connection with the case.

A card which Mrs. Mohr admitted having written a year before the tragedy to George Rooks urging him to persuade his sister-in-law to keep away from Dr. Mohr's home at Newport on pain of "having a sad ending", was admitted to evidence. Mrs. Mohr told the inspector, the latter testified, that she wrote the warning in one of her frenzied moments—that this woman, Miss Burger, had aggravated her till she could stand it no longer.

NATIONAL CHILDREN'S SOCIETY OPENS ANNUAL CONVENTION

Discuss Problems Involved in Bringing Together the Childless Home and the Homeless Child.

Topeka, Kansas, Jan. 13.—Problems involved in bringing together the childless home and the homeless child were discussed by speakers before the annual convention of the National Children's Society which began here tonight. Suggestions were made looking to the enlargement of the work of juvenile courts in this direction.

H. C. Bowman, of the Kansas state board of control, told of the work of Kansas Charitable organizations along such lines and urged state supervision. He pointed out that many children in orphanages could find excellent homes in many rural communities. S. C. C. Stahmann, of the Missouri Children's Home Society, spoke on the need for charitable organizations, while A. T. Burnell of the Iowa Children's Society, had as his topic "Their Function and Field."

Delegates were here from Minnesota, Iowa, Missouri, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Wyoming and New Mexico. The convention will continue tomorrow.

FORD PARTY ELECTS PERMANENT BOARD

FIVE OTHERS WILL BE CHOSEN TODAY AS ALTERNATES

American Members Are Bryan, Ford, Miss Addams, Rev. C. F. Aked and Mrs. Joseph Fels—Five Members From Neutral Countries Will Be Named.

The Hague, Jan. 13, via London, Jan. 14.—The Ford peace expedition has elected the following American members of the permanent peace board to sit in Europe indefinitely with the purpose of using all efforts to settle the war:

William Jennings Bryan, Henry Ford, Miss Jane Addams, The Rev. Charles F. Aked and Mrs. Joseph Fels of Philadelphia.

Five other members will be chosen tomorrow as alternates. The board will be composed of an equal number of members from the various neutral countries and will remain in The Hague or Stockholm with the financial backing of Mr. Ford. Each member will receive a salary and the entire expenses of the board will probably amount to \$500,000 yearly. Dr. Aked announced that he would offer his resignation from his San Francisco church.

Lively discussions among the members of the expedition over the methods of choosing the members of the permanent board, marked the election. After the states had been drawn and offered as the choice of Mr. Ford, its adoption being urged because Mr. Ford was the financial backer of the party, John D. Barry of San Francisco branded the scheme "as a conspiracy to railroad the selection without reference to the members."

He said it would be considered a farce in the United States. This plan was finally withdrawn, and the method of popular election adopted. This lasted all day. Dr. George W. Kirchwey, of Columbia University, New York, now warden of Sing Sing prison, and Miss Emily Green Balch, of Wellesley University were among those defeated. It is not known when Mr. Bryan and Mr. Ford will come here.

Judge B. B. Lindsay of Denver, refused to accept a nomination to the permanent board, but probably will remain in Europe indefinitely in the interest of orphans of the warring nations.

Dr. Aked said respecting his election: "I will offer my resignation to my church. If they desire to keep me without salary I will return after peace is restored. Otherwise I will seek a new job."

The body will later choose between The Hague or Stockholm for the sittings of the permanent board. Most of the Americans will leave for New York on Saturday.

The election of Mr. Ford and Miss Addams was unanimous. Mr. Bryan was opposed by two votes. About sixty delegates attended the meeting. When the meeting opened some of the members contended that the party were merely Mr. Ford's guests and should do as he dictated. One member proposed that a committee composed of Ford officials should select the delegates.

ATTORNEY GENERAL ORDERS RETRIAL OF FORMER NEW HAVEN DIRECTORS

WASHINGTON, Jan. 13.—Retrial of five former directors of the New Haven railroad under indictment for conspiracy to violate the criminal provision of the Sherman anti-trust law was ordered tonight by Attorney General Gregory. William Rockefeller, Lewis Cass Ledyard, Edward M. Robbins, Charles F. Brooker and Charles M. Pratt are the five in whose cases a jury in New York disagreed last Sunday.

Mr. Gregory announced at the same time that the cases against George F. Baker, Theodore N. Vail, T. DeWitt Cuyler, Francis T. Maxwell, Edward M. Robbins and Alexander C. Cochrane, indicted on the same charge, and granted separate trials, would be dismissed.

LUCEY FILES AN AMENDED DEMURRER TO FERGUS SUI

SPRINGFIELD, Ill., Jan. 13.—Attorney General Lucey here today in the circuit court filed an amended demurrer to the Fergus suit asking that State Treasurer Andrew Russell and State Auditor James J. Brady be compelled to make restitution for funds said to have been illegally expended.

The amended demurrer sets up that of necessity Lieutenant Governor O'Hara; Charles F. Tick, Chalmers S. Close, F. H. O'Hara, George C. Hilton, Samuel W. Latham, Paul A. M. Foster, Frank J. Ryan, and W. S. Jewell are defendants to the Fergus suit, together with the four men who were parties to the senate contest, namely: Joseph Strauss, Thomas Byrne, P. J. Ballwin and Henry A. Austin.

HEAR TWO SIDES OF PREPAREDNESS PROBLEM

JANE ADDAMS URGES COMMITTEES TO MAKE NO INCREASE IN ARMY

Chicago Woman States Preparedness Movement is Due to the War—Major General Bliss Speaks in Favor of Administration Plan.

Washington, Jan. 13.—Two sides of the military preparedness problem were heard today by congressional committees. Miss Jane Addams, president of the Women's Peace Society of America, urged the military committees of the house and senate to make no increase in the army, at least until the European war was over, saying the preparedness movement was due to the war. When she left the house committee room Major General Bliss, assistant chief of staff, resumed his statement as a military expert in favor of the administration's army plans.

Miss Jane Addams, arguing that it would be foolish to build more dreadnaughts until it was known whether they were of any use, suggested that a commission be created to study army and navy efficiency and also to look into the motives and interests of those urging heavier armament for the nation.

Preparation against a "hypothetical enemy" she said was needless, and the United States should be prepared to lead with clean hands the movement for reduction of armaments which she thought must follow the great war.

General Bliss told the house committee that American plants could build 200 aeroplanes a month and that there was no immediate necessity of increasing the army aircraft fleet except to equip the new aero squadrons proposed in the department's plans. He believed a balanced organization with proper proportions of all arms of the service was the vital need of the army.

Replying to a question General Bliss said it was impossible to determine the relative value of the navy, coast artillery or the mobile army in any plan of defense. It would be as easy, he said, to decide which was most necessary to body, the heart, lungs, or brain. He argued in behalf of the war department plan to add a number of new regiments to the army to make up the skeleton formations of the three infantry divisions contemplated as necessary by army experts.

To Chairman Hay's suggestion that the \$5,000 additional men asked for to be added to the regular force, the general objected because he insisted that the skeleton of an adequate army was essential to the proper handling of recruits in time of war. He said he would rather command in war a division in which all the arms were reported in proportion of units altho the units were at half strength and had to be filled out with raw recruits than to lead an unbalanced division of full strength command.

General Bliss endorsed the continental army plan fully and said he had been unable in months of study, to see any practical way of employing the national guard to meet the nation's needs. He disapproved suggestions that the regular army be concentrated at several posts.

REPORT BRITISH STEAMER WAS TORPEDOED WITHOUT WARNING

LONDON, Jan. 13.—The British Steamship Glengyle, sunk in the Mediterranean on January 2nd, was torpedoed without warning, according to a Havas despatch from Marseilles.

The same despatch reports that the Steamer Tania, which arrived at Marseilles from Philadelphia, escaped her second time from a submarine by speed and clever maneuvers.

Captain Chester of the Glengyle and twenty men of the crew were picked up by the Steamer Mossoul, the despatch adds while three Englishmen of the crew and seven Chinese were lost.

The sinking of the Glengyle was reported in a London despatch on January 2nd, about 120 persons being on board. All with the exception of three Europeans and seven Chinese were landed. The Glengyle was bound from Shanghai for London.

MONTENEGRO UNDER AUSTRIAN CONTROL?

Austria and Montenegro Have Come to an Armistice

GERMANY INDIGNANT

Allies' Occupation of Corfu Is Regarded A Personal insult to the Kaiser

RUMORS ARE ALARMING

LONDON, Jan. 13.—Another decisive stage in the Balkan situation has been reached with Montenegro now following Serbia in virtual absorption by the invading forces. It was learned tonight that Austria and Montenegro had come to an armistice, this being construed as the last act of the little country after having its capital, Cetinje, dominated by the Austrian capture of Mount Lovcen. Whether King Nicholas will continue the unequal struggle is considered doubtful here, but the accepted view among the best posted men in London is that Montenegro has virtually passed under Austrian control.

The chief significance of this does not lie in the small territory acquisition which is less than Serbia, but in Montenegro's Adriatic front, lying alongside the Austrian main naval station of Cattaro where today's despatch announces, the entire Austrian fleet, including three dreadnaughts, is assembled and from which the recent naval raid against Italian troops going to the relief of Serbia was made.

This further extension of Austria's Adriatic front with the dominating naval center of Cattaro, is viewed as further tending toward the realization of Austria's object of making the Adriatic an Austrian sea and thus checking Italy's ambition to make it an Italian sea.

Italy had so much at stake that officials and diplomats had been waiting anxiously for the steps Italy would take to relieve Montenegro and at the same time avert another Austrian extension on the Adriatic. They were aware that Italy had once before prevented Austria from gaining territorial concessions from Montenegro near Cattaro, by objecting to the treaty made in 1912. As Italy was then a member of the Triple Alliance, Austria reluctantly yielded to the Italian objection.

It was believed that dynastic reasons would play a part in Italy's assistance of Montenegro, as King Nicholas' daughter is the wife of the King of Italy, but help from that quarter did not arrive as the Italian expedition was landed further south, in Albania, and has not been heard from since.

The London Times asserts that Italy's interests in Montenegro are as important as England's in the opening of the Dardanelles and that the prospective annihilation of Montenegro will have far reaching maritime consequences in the Mediterranean.

The news of the entente allies' occupation of Corfu is said to have excited the greatest indignation in Germany, where the fact that Achilleon Castle is to be used as the Serbian headquarters is regarded a personal insult to the German emperor. It is said that the emperor has sent a personal protest to the King of the Greeks, holding Greece responsible for any damage to German property from Serbia.

The official communication from Constantinople asserts that the Turks knew in advance about the Anglo-French plans for the abandonment of the last Dardanelles positions, and made preparations accordingly, but the fire from the French and British warships appears to have been successful in screening the retreating troops from the Turkish attempt to exact a heavy toll.

Rumors of the state of the German emperor's health have again assumed an alarmist tone, but without authoritative backing. A Rome despatch reports that the Crown Prince has been summoned to a council to discuss measures in case the emperor's illness is prolonged. An Amsterdam despatch attaches significance to the fact that the emperor failed personally to read his speech at the opening of the let.

An Amsterdam despatch to the Exchange Telegraph company says: "The emperor is still abed suffering from his throat and a fever has set in."

The correspondent fails to give the source of his information however. The only news direct from Berlin quotes The Tagblatt as saying that the "holl" from which the emperor is suffering does not prevent his walking out.

Let Us fix your old watch
or sell you a new one

WHAT AN ANNOYANCE IT IS TO HAVE A WATCH THAT DOES NOT KEEP THE RIGHT TIME!

WHEN WE SELL YOU A WATCH IT WILL BE A CONSTANT PLEASURE; IT WILL BE ACCURATE AND RELIABLE.

IF YOU DON'T WANT A NEW WATCH, WE CAN FIX YOUR OLD WATCH SO THAT IT WILL BE A GOOD TIME-KEEPER-IF IT IS WORTH FIXING. IF IT IS NOT WE WILL TELL YOU SO.

IF YOUR WATCH IS NOT RUNNING RIGHT BRING IT IN TODAY. YOUR WATCH SHOULD BE CLEANED OR OILED EVERY YEAR.

For President

L. Y. SHERMAN.

For Governor

ANDREW RUSSEL.

Secretary Lansing's note to Carranza is too mild to suit the average taste. They are not used to soft words in Mexico and only some show of vigorous intent to have the bandits who murdered Americans hunted down and brought to justice will have results. Diplomatic correspondence does not fit the Mexican case. Only the "big stick" or fear of it will ever make conditions safe for Americans.

Elihu Root has wired to the secretary of state in Minnesota that he is not a candidate for the Republican presidential nomination and does not want his name on the primary ballot in Minnesota. This action does not remove Mr. Root from the list of possibilities any more than is true of Justice Hughes and EX-President Roosevelt, both of whom have issued requests that their names be eliminated from primary contests. More talk about them was the immediate result.

Watch the Figures.

Unless somebody heads off Democratic statesmen in Washington who are seeking appropriations for one cause or another, the appropriations will exceed any previous record by many millions, aside from those expenditures occasioned by any preparedness program which may be adopted. Other Democrats are especially active in planning onslaughts on the treasury and all kinds of appropriations are being sought for the benefit of crossroads hamlets in the south and for the enlarging of minor streams in that country under promise of making them great waterways. The president or some other leading Democrat should have the fine courage in opposing these plans that has been displayed in devising taxation to take care of the Democratic deficit in the treasury and the proposed national defense program.

Seeking Better Ways.

Because municipal government as a general proposition has not reached as satisfactory a level of efficiency as county and state government, continued experiments and investigations

Rippling Rhymes By WALT MASON

CONVALESCENT

When one's recovered from the grip, and fit to walk around again, he likes to take a little trip downtown among his fellow men. He wants to tell his comrades there about the tortures he has known, of how the anguish grayed his hair, and harrowed the, and twisted bone. He meets a friend and says, "Oddish, he patient while ten minutes skip and barken to me for I wish to tell about my case of grip. That learned chiurgeon, Dr. Daw, who saved me from a box of pine, ha'h told me that he never saw a case one-half so bad as mine. My lungs refused their proper graft, my windpipe, like defective flue, was all clogged up, there was no draft, it whistled every breath I drew." Come off, come off and sock your head," exclaims the friend, so brash and flip; "I just have risen from my bed, where I had forty kinds of grip. And any of the forty brands was worse than your denatured case, so push yourself with both your hands, and spring your yarn some other place." That's all the sympathy one gets, when he's allowed to run at large, by all the doctors, nurses, vets, who've had him for six weeks in charge.

my case of grip.

Victoriano Huerta is dead and his answer for alleged crimes must be made to the judgment bar above, rather than in any earthly court. Huerta may have been more wicked than the so-called leaders in Mexico today but he was certainly far more able as a statesman and general. He was a close friend of former president Diaz and that is to his credit for Mexico has known no such leader and friend as Diaz for decades. Following the overthrow of Diaz and the failure of the candidate chosen by the followers of the former president, Huerta organized the revolt against Madero. He probably instigated the plot that resulted in the death of Madero and his associates and thus became provisional president. Because of this crime President Wilson refused recognition to Huerta and then followed a series of events detrimental to Mexico, to Americans and American interests there. The methods that Huerta used to place himself at the head of the government were most reprehensible but should have been judged rather by Mexican than American standards.

DATES IN ILLINOIS HISTORY.

Jan. 14, 1680—LaSalle succeeded in winning the consent of the Illinois Indians to build a fort near Lake Peoria.

tions are being made in the hope of improving systems and methods. As a result of this condition a federation has been formed in New Haven, Conn., and a special investigation is being made now in an effort to find out how the various departments of city government overlap in their work and duties. The idea is that if a city manager or some other official of like power was responsible for all the departments that extensive savings could be effected in the correlated work. Committees from the federation are making this survey of investigation of all departments and from day to day publish the results of their findings.

Some Indirect Benefits.

While the manufacture of war munitions is confined to a comparatively few lines, the effect of this manufacturing activity touches still a great many other lines and thus the general tone of business has been entirely changed. The price of steel has advanced steadily during the past eight or ten months and has gone up every few weeks about \$2 a ton. By this means every concern handling structural steel which has had any stock on hand has profited largely. Some of the bridge companies are among these fortunate firms and have steel on hand or contracted for which has advanced in a way that has meant a substantial profit. The local bridge company is said to be in this class but officials asked about the matter are reticent.

A telephone company doing business in Louisville, Kentucky, has profited in still another way because of the war prices. It became necessary to entirely rewire the company's lines in Louisville and before the increases resulting from the war came on contracts were made for the necessary materials. Since that time the price of copper has increased so amazingly that the company is said to have been able to dispose of the old wires taken from their service at such figures that the improvements have been paid for and a surplus of \$10,000 left over. It is not often that a telephone company plays in such luck.

Discuss Oiled Roads at University.

The continued interest in questions of road building in the state is indicated by the short course in highway engineering established at the University of Illinois. This course is now being given and will cover a period of ten days, and a number of men, especially interested in road problems, have enrolled from various parts of the state. It is said that the chief interest in the state now centers around the use of oil on country roads. Many successes have been claimed but it is certain that large sums of money have been wasted by buying inferior oils and by applying the same carelessly or without proper draining and grading work.

The university news letter referring to this matter says, "The correct theory seems to be that after a road has been properly graded and provision made for keeping it dry, then oil can be applied to the surface to assist in maintaining the dry conditions. If, however, the sub-surface is not well drained, then the application of oil on top may be useless." It is known that large purchasers of road oil have in the past few months rejected many carloads as not suitable for their purposes, and that these rejected cars have been purchased by other persons not fully informed on the road oiling subject. This question of the proper constituents of oil for road work will be one of the themes discussed by experts at the university school.

Churches Will Advertise.

The two year campaign which a number of the religious denominations of the United States have planned will open in Seattle today. The movement resulted from the acquisition of the exhibit of church work which was brought together at the Panama-Pacific exposition. Motion pictures will have quite a large place in the exhibition, and routes have been mapped out which will include all the larger cities and also many of the smaller ones of the entire country. In each city the exhibit will be shown for a week. The purpose of the exhibit is, plainly speaking, to advertise the activities of the great church denominations. Methodists, Baptists, Congregationalists, Presbyterians, Episcopalians, Christians, United Brethren, Lutheran, American Bible society, American Tract society, Salvation Army, are only some of the organizations which have combined for this movement, believing that great benefits will accrue to the church and religion if those outside of the churches are familiarized with both church ideals and the actual accomplishments. The campaign was planned with the thought that these things could not be brought so forcibly to notice in any other way.

Huerta.

Victoriano Huerta is dead and his answer for alleged crimes must be made to the judgment bar above, rather than in any earthly court. Huerta may have been more wicked than the so-called leaders in Mexico today but he was certainly far more able as a statesman and general. He was a close friend of former president Diaz and that is to his credit for Mexico has known no such leader and friend as Diaz for decades. Following the overthrow of Diaz and the failure of the candidate chosen by the followers of the former president, Huerta organized the revolt against Madero. He probably instigated the plot that resulted in the death of Madero and his associates and thus became provisional president. Because of this crime President Wilson refused recognition to Huerta and then followed a series of events detrimental to Mexico, to Americans and American interests there. The methods that Huerta used to place himself at the head of the government were most reprehensible but should have been judged rather by Mexican than American standards.

There bloodshed and intrigue are part of the every day life. Huerta no doubt staid his political path way with blood but it may not have been innocent blood and be that as it may he had a stronger hold on the government and the army than any leader has had since. Huerta is dead and his life history has been written. Evil tho he may have been, he was in position to make the instrument for greater peace in Mexico than has come since his downfall thru Carranza, aided by the Wilson administration.

TEMPLE ENCAMPMENT NO. 19 HAS ANNUAL INSTALLATION OF OFFICERS

Joseph Ludwig is Chief Patriarch and Allen T. Franz, High Priest—Roll Call is Held and Letters Read—Installing Officers.

The annual installation of officers and roll call of Temple Encampment No. 19 was held Thursday evening in Odd Fellows' Temple, with a goodly number of Patriarchs in attendance. At the roll call, letters were read from Andrew Russell, who sent word from Springfield; J. C. Thompson of Murphysville, J. B. Brown and T. C. Carmean.

Wives of the Patriarchs served luncheon at the conclusion of the encampment session. The entertainment committee consisted of Carl C. Henderson, chairman, T. S. Martin, C. O. Bayha, George Hacker and N. Deatherage.

Following are the elective officers: Chief Patriarch—Joseph Ludwig, High Priest—Allen T. Franz, Senior Warden—Frank C. Craig, Recording scribe—A. E. Phillips, Financial scribe—J. Clark Rothwell.

Treasurer—E. M. Dunlap, Junior Warden—John A. Shaddid. The appointive officers of the encampment are: Guide—Samuel C. Hunt, Second watch—Carl C. Henderson.

Third Watch—William H. Day, Fourth Watch—Eliert Brasel, Inner sentinel—Joseph L. Ro5-ers.

Outer sentinel—George Hacker, First of tent—M. L. Melton, Arthur Cobb, as district deputy grand patriarch, was chief installing officer. He was assisted by Messrs. Martin, Henderson, Day Brasel and Hunt.

J. F. CLAUS is back to the tea store looking after his many friends and customers.

ONLY ONE COMMISSIONER WANTED IN SCOTT CO. TOWN

It is time now to get up the petitions to change our road district from three to one commissioner, says the Bluffs Times. There is a concerted movement all over the country to get under the one commissioner plan as it has proved more economical and gives better results.

In nearly all the districts where they are still under the three commissioners, petitions are being circulated to make the change at the coming election, and it is talked of in this district. The County Supervisor has the blanks for this petition and by consulting him they can be secured. If there ever was a change in systems needed, it is in the road work, and one commissioner, giving the district his entire time will do more effective work than three who only put an occasional day on the road, and then when there is nothing to do on the farm. This is usually the system and the result is hundreds of dollars of the people's money squandered in useless work, and roads that should have been worked are left untouched.

CLAU TEA CO. for the best 25c coffee in the city.

CONSERVATORY CONCERT

AT STATE STREET CHURCH The annual mid-winter concert of Illinois Conservatory of Music will be held Friday evening, Jan. 21, at State Street Presbyterian church instead of Westminster as at first announced. The chorus will present Massenet's "Eve," Mrs. Sarajane Mathews Brown will take the part of Eve, John A. Rohan of St. Louis will take the part of Adam and Harry Beckman will be narrator. The orchestra will give Schubert's "Unfinished Symphony" and Bolzon's "Minuet."

The students' recital at Academy hall Thursday night was well attended despite bad weather. The program as previously published was carried out with exception of a piano number by Miss Bertha Gordon. Miss Gordon was ill as was the accompanist of the evening, Miss Marguerite Butler. Miss Butler's place was taken by Mrs. Genevieve Clark Wilson.

Don't sleep cold tonight. Call on or telephone FRANK BYRNS Hat Store for men's warm sleeping garments, 50c up.

IONA COUNCIL HOLDS

ANNUAL INSTALLATION Iona Council, No. 37, Daughters of Pocahontas, held their regular installation of officers Thursday night in their hall on West Morgan street. The installing officers were Mrs. Lizzie Hayes and W. J. Brooks. After the work a social hour was enjoyed and refreshments were served. The officers installed follows:

Prophetess—Lizzie Hayes, Pocahontas—Ada M. Barcroft, Keeper of Records—Ella M. Brooks.

Keeper of Wampum—Fannie Harrison.

Powhatan—Samuel Armstrong.

Wenona—Minnie Pickup.

Trustees—W. H. Harrison, Samuel Armstrong.

Representative to Great Council—Ada Barcroft.

J. C. Bentley of Fairview is visiting friends in this vicinity.

JURY CONSIDERS CASE OF THE ALLEGED PUBLISHERS OF MENACE

Judge Recommends Verdict of Not Guilty in Case of Rev. Theodore C. Walker, One of the Defendants.

Joplin, Mo., Jan. 13.—Consideration by the jury of the evidence in the trial of the alleged publishers of The Menace, a weekly newspaper of Aurora, Mo., charged with misuse of the mails began here in United States district court early tonight. At ten o'clock no verdict had been reached and the jury was locked up for the night.

A verdict of not guilty in the case of the Rev. Theodore C. Walker, one of the defendants was recommended by Judge A. S. VanValkenburgh in his charge to the jury. The judge said the aged minister did not appear from the evidence as having authority or established connection with The Menace Publishing company. Three other men named as defendants, Wilbur F. Phelps known as president and business manager of the company, Bruce M. Phelps, known as superintendent and Marvin Brown, known as managing editor, were described in statements read in court as the principal stockholders of the company.

Interest in the case was heightened because of the infusion into the trial of numerous references to religious matters, charges against the defendants being based on articles referring to the Roman Catholic clergy.

BITTER COLD SHOWS NO SIGNS OF MATERIAL AMELIORATION

Railroad Schedules Somewhat Improved—Telegraph Wires Down at Many Points.

Chicago, Jan. 13.—The bitter cold of the last eighteen hours in the Western states accompanied in certain sections by rain and snow storms, showed no signs of material amelioration tonight.

Railroad schedules, demoralized during the day, were somewhat improved tonight but telegraph wires were down at many strategic points.

Along the Canadian border of the northwest temperatures from 30 to 45 degrees below zero were recorded. St. Louis and in Chicago the mercury dropped to six below.

Oklahoma and Nebraska were promised decreasing frigidities but Kansas, Missouri, Iowa and parts of Illinois were condemned to further suffering.

It was predicted that by morning the mercury in the environs of Chicago would decline to 18 below zero.

In Western cities several fires were attributed to over strain of heating apparatus. Kansas and Chicago both reported a death from exposure.

PLAN TWO HUNDRED PLATE BANQUET IN A HUGE SEWER

St. Louis, Mo., Jan. 13.—A two-hundred plate banquet in a sewer, followed by an automobile trip into the underground storm water drains are being planned for the dedication of St. Louis new \$3,000,000 main sewer. This sewer, 18 feet in diameter, four miles long and hewn for about three miles thru solid rock, is in the opinion of President Kinsey of the St. Louis Board of Public Service "one of the greatest sewers in the world."

The dedication will take place about April 1. The fact that the greater part of the sewer will be "bone dry" in April, Mr. Kinsey says, and that it will never be used for other than storm water, makes it a fitting banquet hall. It is possible, he says, that a spring rise may send the waters of the Mississippi River several hundred feet into the sewer and in this event the guests to the banquet could enter the sewer from the river in motorboats.

The route of Mill Creek Sewer is from the western city limits to the Mississippi River almost in a straight line and thru the North End of the city, a section abounding in quarries. The sewer is built of concrete.

MATRIMONIAL

Coffee-Campbell.

William Coffee and Lulu Campbell were married last Saturday in Naples, the wedding coming as a complete surprise to friends of the young people. The bride is a daughter of Henry W. Campbell and the groom is the son of Mrs. Henry Hyatt. They will reside in Hannibal, where the groom is employed as a telegraph operator.

Tosh-Marks.

The marriage of Cornelius Tosh of Waverly and Miss Mable Irene Marks of Farmington, Mo., were married at noon Wednesday at the parsonage of the Central Baptist church in Springfield, Rev. S. H. Bowyer, pastor of the church officiating.

ELKS TO HAVE NEW HOME AT JERSEYVILLE

A deal has been practically completed by which the Elks of Jerseyville, one hundred and twenty of them, will come into possession of the Old Commercial hotel building, a three-story structure, in the center of the business district which is to be remodeled at a cost of \$4,000 into splendid club and lodge rooms, says the Jerseyville Republican.

While the papers are not yet signed it is stated upon good authority that the necessary transactions will be completed soon. Substantially \$8,000 will change hands in the deal.

For payment of the necessary cost of the buying and remodeling, 240 bonds of \$50 each were disposed of to members of the lodge, which makes \$12,000 available for the improvements.

Double heeled rubbers at Hoppers'.

FUNERALS

Maddox.

The funeral services of Mrs. Samuel T. Maddox were conducted Thursday afternoon at 2 o'clock from the family residence, 734 East street in charge of Rev. G. W. Flagg, pastor of Centenary M. E. church, assisted by Rev. J. W. Eckman of Decatur, a life long friend and former pastor of the deceased.

Music was furnished by a quartet composed of Miss Clara Ranson, Mrs. Nell Self, J. Philip Read and Albert C. Metcalf. The flowers were in charge of Mrs. George Baxter, Misses Irene Black, Ada Maddox, Edna Stout and Edna Tichnor.

Burial was made in Jacksonville cemetery and the bearers were Charles Black, Edward Black, James Black, John Black, Bert Maddox and Dr. George Baxter.

PROPOSED WILLARD-MORAN BOUT IS POSTPONED UNTIL MEMORIAL DAY

NEW YORK, Jan. 13.—The proposed ten round bout between Jess Willard, world's heavyweight champion and Frank Moran which it was expected would take place in this city some time in March, probably will be postponed until Memorial Day, it was reported tonight.

This step has become necessary, it is said, because Willard has informed the promoters of the match that he cannot fight in March. If a later day is selected the bout will be staged in the open.

BRENNAN'S, The Quality Store

ARREST MORE THAN SCORE OF VILLA OFFICERS

(Continued from page one)

said later, "that the Carranza forces will not rest until they have captured and punished the assassins. Each American killed was given permission to go thru the lines, but that permission should not be considered as a passport. The Carranza authorities have not wanted Americans to return to their work in districts not unquestionably under their control and where peace has not been entirely restored. We have fully realized the difficulty of proceeding Americans in certain regions and our total inability to do so in those where the reactionary element is in control. Americans should stay away from such districts.

Regrets Occurrence.

"Personally I regret deeply what has occurred and naturally so must General Carranza and I am sure he will do all he can to bring punishment to those guilty. I also am certain that my government will undertake a vigorous campaign to purge the region where foreign business interests exist. The reason why these unfortunate victims of Villa's ferocity met such a horrible fate is solely their desire to get their place of business and industrial activity before the complete control of the region by the constitutional government has been accepted."

Mr. Arredondo said the murders took place in a region peculiarly favorable to bandit operations and where similar outrages have occurred.

"I am trusting now," he continued, "in the sound sense of the American people who cannot but realize that hardly a month has passed since the state of Chihuahua passed into the nominal control of the Carranza government and that within so short a time it was materially impossible to regain complete control and maintain entire order, cleaning out the remnants of the once powerful Villa army."

FOUR ARE KILLED WHEN PARTLY FILLED OIL TANK EXPLODES

CHICAGO, Jan. 14.—An oil tank partly filled with oil in the West Side yards of the Chicago & Northwestern railroad exploded early this (Friday) morning, killing four persons and injuring two. Only six persons were near the tank at the time of the explosion.

The men were in a small building adjoining the oil tank which burned quickly. Two bodies were burned beyond recognition. The two men injured may recover it was said. The cause of the explosion is not known. The property damage was small.

TEMPERATURE FALLS TO TAKE BIG DROP.

Six below zero was the average indication of thermometers in the business district at 2:30 o'clock this morning and the fact that the mercury has stood for four hours with but little change gave promise of a gradual rise in temperature. Late in the evening Thursday the thermometer at the north end pumping station stood at 4 degrees below. At sunset city thermometers ranged from 2 to 4 below and the government thermometer at Alexander stood —3 at 7 o'clock.

Wednesday night the thermometer began a downward course which did not stop until —10 was reached at dawn. Mr. Hall consulted his thermometer several times in the course of the day Thursday and at no time was the temperature higher than —2.

UTILITIES COMMISSION GRANTS PETITIONS OF RAILROADS

CHICAGO, Jan. 13.—Equipment trust certificates to the amount of \$2,440,000, were authorized today by the State Public Utilities Commission when it issued an order granting the petitions of the Illinois Central railroad company and the Indiana Harbor Belt railroad company.

The Illinois Central will issue \$1,900,000 certificates to bear four and one half per cent, which will go toward the purchase of fifty locomotives and one thousand refrigerator cars. The Indiana Harbor Belt railroad will issue \$540,000 five per cent bonds.

DECLARES EVERY VILLA LEADER WILL BE RUN OUT OF EL PASO

EL PASO, Jan. 13.—Miguel Diaz Lombardo, minister of foreign affairs in the Villa organization was arrested here today charged with vagrancy and held in \$1,000 bail. General Jose Prieto also was arrested and charged with vagrancy. "Every Villa leader in El Paso is to be run out of town," declared Captain W. D. Greet of the police department.

NO OFFER MADE TO AMERICAN CITIZENS. Ottawa, Ont., Jan. 13.—General Sir Sam Hughes, minister of militia stated tonight that he had no knowledge of the Major Greenfields reported to have offered a commission in the Canadian expeditionary force to an American citizen.

RICE WINS CHAMPIONSHIP. Pine Hurst, N. C., Jan. 13.—Grantland Rice of Englewood won the championship in the Advertisers' Golf Tournament here today, his gross score for 72 holes being 237.

GENERAL HUERTA DIES IN EL PASO

(Continued From Page One.)

not carry out the operations with any spirit, that he disobeyed the commands of President Madero, and that before General Blanquet entered the city it was this conference which sealed the fate of the Maderos.

Huerta was the moving spirit in the consummation of the plot that resulted in the seizure of the person of President Madero and his brother Gustavo.

The assassination of President Madero and his brother followed and in the meantime Huerta, with the military behind him, had been recognized as the provisional president.

Huerta took office as provisional president on February 19, 1913. Three days afterward Francisco Madero, one of his brothers who had been arrested with him, and Jose Maria Pino Suarez, vice-president under Madero, were assassinated while riding under guard from the palace to the penitentiary.

Crime Aroused Indignation.

This crime aroused a storm of indignation throughout the United States. In many quarters there were demands for intervention but President Taft, who was on the eve of leaving office, decided to take no action which might commit the incoming administration of President Wilson.

Immediately on assuming office President Wilson refused to recognize Huerta as the head of the Mexican government in spite of the fact that such recognition had been granted by Great Britain. At the same time the Maderistas rallied under Venustiano Carranza, Governor of Coahuila, and Francisco Villa declared against Huerta.

Following the refusal of President Wilson to recognize the provisional president United States Ambassador Henry Lane Wilson was recalled from Mexico City. The situation between the United States and Mexico then remained at a practical deadlock until August when President Wilson sent John Lind, former governor of Minnesota, to the Mexican capital as his personal representative. Mr. Lind presented certain proposals to Huerta, chief of which was that the provisional president should resign and permit a national election at which he would not be a candidate. Huerta peremptorily rejected these proposals.

In the meantime the Mexican congress had been growing restive and one Senator had the hardihood to make an open attack on Huerta in the Senate chamber. He promptly disappeared and when his colleagues demanded an investigation Huerta marched a body of troops into the Hall of Congress, seized 119 deputies and threw them in jail.

His next step was to call an election at which only Huertistas were allowed to vote with the result that he was declared president with General Blanquet vice-president. Mr. Lind again demanded that Huerta resign and, meeting with a second refusal, left Mexico City on November 12 for Vera Cruz.

Throughout the winter the tension between the United States and Mexico continued to grow more acute. American warships were despatched to Mexican waters and a large number of troops were concentrated at the border. At the same time the Constitutionalists, as the Carranza faction called themselves, advanced from the north defeating the Huerta troops in battle after battle.

The climax came in April when a party of American bluejackets was seized at Vera Cruz and thrown into jail. The Americans were quickly released but Huerta refused President Wilson's demand for a formal salute to the Stars and Stripes as a measure of reparation. On April 12 American bluejackets and marines landed at Vera Cruz in force and occupied the city after some street fighting in which a number of Americans were killed.

Shortly afterward a mediation proposal was made by Argentina, Brazil and Chile and accepted. Conferences were held at Niagara Falls but brought no decisive result.

Matters dragged along until July 7 when Huerta, his finances exhausted, his army thoroughly beaten and disorganized, his enemies growing steadily stronger, presented his resignation to the Mexican Congress. He sailed from Puerto Mexico a few days later on the German cruiser Dresden and after a short stay at Jamaica, chartered a steamer and set out for Spain. On November 23 President Wilson ordered the evacuation of Vera Cruz.

On March 3, 1915 General Huerta left Spain ostensibly for Buenos Aires. He disembarked at Algeciras, Morocco, and early in April boarded a steamer for New York declaring he was coming to this country simply on a pleasure trip. After remaining in New York for some time he started west with the announced intention of visiting the San Francisco Panama Exposition. On June 27 he was arrested by secret service agents at Newman, N. M., on a charge of conspiracy to incite a revolution against a friendly country. He was released on bond but was re-arrested by secret service men at El Paso on July 3, when apparently planning to cross the border.

Huerta remained in jail until December 28 when he was permitted to be removed to his home in El Paso on account of the serious nature of his illness.

During Huerta's stay in America numerous stories were circulated from various sources asserting that he was being backed by German agents in a plot to embroil this country with Mexico. These stories were officially denied by Count von Bernstorff, the German Ambassador. They were revived again, however, by statements by federal officials that Franz von Rintelen, a German agent, had spent large sums of money endeavoring to cause disturbances on the Mexican border.

COUNT OKUMA, JAPANESE PREMIER, NARROWLY ESCAPES DEATH

Two Bombs Are Thrown at the Premier's Automobile—Premier is Not Injured.

Tokio, Jan. 13.—Count Okuma, the Japanese premier who twenty-eight years ago narrowly escaped death at the hands of a bomb thrower, had a similar experience just before midnight last night as he was returning from a banquet at the Imperial Palace given in honor of Grand Duke Mikhailovitch of Russia, who has brought the congratulations of Emperor Nicholas to Emperor Yoshihito on the occasion of the latter's coronation.

The premier was not injured. His secretary and the chauffeur also escaped unscathed. Two bombs were thrown at the premier's automobile. One of them exploded just behind the machine.

The machine was traversing a densely inhabited quarter of the city when a man rushed into the street and threw a bomb at the car. The missile broke a window in the machine but glanced and rolled off into the gutter. The chauffeur, realizing the danger, put on speed and managed to escape the second bomb which fell behind the car and exploded with a terrific noise. The car was slightly damaged. According to eye-witnesses there were two bomb throwers, both dressed in European clothes, but presumably were Japanese.

Despite the attack on him Count Okuma made another visit to the palace this morning. Previously Emperor Yoshihito and Grand Duke Mikhailovitch, learning of the attempt on the premier's life made inquiries concerning him. At the banquet prior to the attack the emperor and the grand duke in addresses exchanged felicitations and voiced satisfaction at the growth of the confidence and friendship existing between Japan and Russia.

**LADIES,
Tomorrow's
Styles
Today!**

We have just received a shipment of some of the very latest styles in fine footwear, including genuine white calf, side button boot, which is selling on State street, in Chicago, for \$10. We are going to sell them on State street, in Jacksonville for

Do You Leave Your Change on the Counter?

Certainly Not. Foolish Question, You Say.

Read This. Then Think!

You read about *S. & H. Green Trading Stamps*. The **ARCADE** is the *only furniture store* in Jacksonville that gives them. Do you know what *S. & H. Green Stamps* mean in CASH to you?

With a book representing \$100 in trade you can select at the S. & H. Green merchandise worth \$5.00. You ought to have FIVE CENTS rebate on EVERY DOLLAR you spend. DO YOU GET IT?

Why Join a Christmas Saving Club

In the course of the next year if you buy from firms giving S. & H. Green Stamps and save all the stamps YOU WILL HAVE ENOUGH TO BUY \$35.00 OR MORE IN PRESENTS. COSTS YOU NOTHING except asking for the stamps. WE SELL FOR LESS than any other furniture store. WE GIVE S. & H. GREEN STAMPS. THIS IS THE LOGICAL PLACE TO TRADE!

Bring this advertisement to our store any day next week. We will give you double Stamps with any purchase. Just one week only.

Some Topics of the Farm

C. A. Rowe Talks of Farm Themes.

Charles A. Rowe in conversation yesterday, not intended for publication, spoke of the changing conditions which constantly confront farmers and stockmen. He said that a farmer may establish a certain set of rules for crop rotation and farm management which he expects to follow and feel confident that the rule will be in effect for years to come. Then suddenly changes are encountered which alter the whole program. This was brought forcibly to Mr. Rowe's mind a few years ago when he and his father purchased some land west of Jacksonville on the Mound road. A farmer who lived in the neighborhood remarked to Mr. Rowe, "Well you have your plans all made for the operation of this farm and you know now just what you will be doing twenty years from this time." This was something of the thought that was in Mr. Rowe's mind, but he had occasion to change his plans. The expectation was to plant corn, oats, wheat and clover, using the clover for hog pasture. A year came when little clover grew. Thus there was no hog pasture and the whole system of crop rotation necessarily went thru a change.

Talking of market changes, Mr. Rowe said that a few years ago it was possible for a farmer to market his hogs weighing 300 to 400 lbs. and take the top price and that now the opposite holds true and the lighter hogs are given the preference. So the farmer who puts his high priced grain into hogs and pushes them along to a heavy weight must stand for a decided reduction from the top of the market when the hogs get to the stock yards. Because of these changing conditions, the record of market prices often used by stockmen in determining for what market month they will feed become confusing. Comparative figures always give the top of the market and more often than otherwise it happens that the hogs the farmer has to ship are not of the same grade as those which topped the market. It has begun to look in these recent years as if the packers made a business of preferring light hogs and paying the higher price for them when very few were on the market and in other months when light hogs predominated on the market, to prefer the heavy grade and give the higher prices for them. This, of course, has the effect of letting the packers make their larger purchases on the lower quotations and their light purchases on the higher quotations.

Mr. Rowe adheres to his belief in the benefits of vaccination against cholera because results have been satisfactory on his own farm. He realizes that the vaccination scheme has received some hard knocks in various localities and that the farmers who maintain that their neighbors who vaccinate bring cholera into the neighborhood have some argument to stand on. Mr. Rowe also has continued faith in the use of limestone and phosphate in building up the soil and making it more possible to grow legume crops. Yet he admits that in certain instances he has known of the application of limestone and phosphate where there were no visible benefits. He has seen fields where careless agricultural methods have predominated for a long period and then will come favorable year and a splendid stand of clover will be secured. He has seen land adjoining where the soil was in such rich condition that the corn and other grasses (for corn is a grass) will grow luxuriantly and if the clover is planted in oats, the oats will be so dense that the clover will be smothered out. This gives evidence of an excess of nitrogen in the soil.

Constantly a student of soil fertility and stock problems, Mr. Rowe is one of those specialists who spends hours and days and months and years in study and yet always maintains that he is not sure of having "discovered the only right methods" of agriculture. From his view the problems are so many, so changing and vary so with conditions, that one almost concludes after an extended study of the subjects that successful agriculture, after all, is in a large degree dependent upon providence.

FEEDING CATTLE IN THE CORN BELT

By Frank E. Drury.

Frank E. Drury who today ranks as one of the most successful stockmen in central Illinois has an article in the holiday number of The Breeder's Gazette on "Feeding Cattle in the Corn Belt." The holiday issue of this well known publication comprised one hundred pages and the contributors were many of them of country wide fame. Mr. Drury's article has both local and general interest and will be published in the Journal in installments.

(Article two.)

(Continued from Thursday.) I grew my first crop and sold it to him at 40 cents per bushel. The cattle market was still low, and it was a hard turn for the feeder again. Feeling that I was right, I went on growing corn. The next year, however, I could only get 25 cents a bushel, so I just held the corn. The following year I could only get 21 cents, so I held that crop. I had to build more crib room, while father bought the other fellow's corn. The next year I was offered 13 cents per bushel for the three crops of corn delivered at the station. I was out of crib room, out of money, and out of patience with grain farming. Father was coming out better

now. Corn was low and live stock was higher. I decided to adopt father's plan, so I bought both cattle and hogs, and fed out the corn. As I was anxious to know how it figured out, I kept a record of it. The cattle cost 4.7 1-2 cents and sold at \$1.69 at home, after 6 months' feed; hogs cost \$2.10 and sold at \$3.50 per cwt. I weighed cattle and hogs up the same day, finding I had 30 cents per bushel for the corn. While I have fed cattle and hogs and sheep ever since, I do not claim to have marketed the corn always at that much margin over the market.

I have always believed, however, in what Prof. John M. Evvard of the Iowa State Experiment Station calls the "free-choice idea for the hog"; so that the first hogs I fed ran to a self-feeder, which was also a cattle feeder. In looking for the practical feeding hog, I passed over the home-grown short, fat, corn-fed hogs and brought my hogs from the parts of the country where they had access to mast and the cowpeas of the poorer soils. These hogs had large, strong frames, were rapid gainers and were a good makeshift for the hogs we produce now with balanced rations. Such hogs have free choice of protein and carbohydrates all their life, instead of all protein early and all fat later, as was necessarily so with the "imported" hog. The up-to-date, balanced-ration, present-day hog is ready for market at any time, and can be made as big and will be as able to carry its weight as well as the timber raised hog. Scientific feeding is simply supplying in a more condensed form the elements found necessary to the best development of the hog. The hog that originally had free range supplied itself with roots and herbs in the same manner in which we give it now a free choice of protein and carbohydrates.

Having fully determined on this method of feeding, we cast about to save a little money on the protein. We grow forage crops to take the place of tankage; first and all the time alfalfa, then a catch-crop of rape, both in small grain crops, and sown at the last cultivation in corn to be hogged off, with some left in the stalkfields for brood sows. I had recently 60 acres of stalkfield with a luxuriant growth of rape 3 feet high, ready to turn my 120 brood sows on just prior to the December breeding. Another good crop comes from soybeans and corn, half and half, drilled and cultivated as corn, and all hogged down. This is an efficient, productive, balanced-ration crop. It differs from rape, as the soybean, being a legume, is extensively grown in some regions as soil-improving plant.

I weighed about 400 hogs into 15 acres of corn and weighed them off in 40 days. They had paid 50 cents per bushel for 100 bushels to the acre and a great plenty of corn was left for the brood sows. After using all the forage crops, and having finished hogging down the rape and corn and soybeans and corn, it is about the time of year for the cattle barn and hoghouse, where I have the sunlight on the hogs while they eat from a large self-feeder, and where a carload can feed at a time, and several hundred can be accommodated. I have good water in both hoghouse and cattle barn; I also have arrangements for heating the water for both hogs and cattle whenever necessary as I feel that this saves feed and conduces to better gains. The lots and hog sheds are concrete, so that it is possible to keep both cattle and hogs out of the mud and at the same time conserve fertilizing material.

The cattle barn will accommodate about 200 cattle. I generally have about 500 hogs with the cattle. The hogs have access to the barn and the hoghouse. All make the trip with the cattle, till some begin to get a little heavy; these drop back and stay at the feeder shed. They are a little slow about getting out of the way of the cattle and feed wagons. I sort the heavy end of the hogs and only keep the light hogs with the cattle. This makes it a simple matter to slip out a load or two for shipment, with but little disturbance.

When we first began the habit of feeding cattle in the open lot, and on the ground, it being the practice then to have two lots, and to give the cattle the first chance at the corn, the hogs cleaning up afterwards, our first move was to feed in troughs, outside. The hogs were all out before feeding each time. Next, and I think it began early in Missouri, I built the trough for the hogs and only kept the light hogs with the cattle. This makes it a simple matter to slip out a load or two for shipment, with but little disturbance.

(To be continued.)

Farm Implement Notes.

The Federal Reserve Board ruled last week that notes given by farmers for the purchase of farm implements may be discounted through member banks with the federal reserve banks. This ruling is of more interest to those who sell implements to farmers than it is to farmers, for it means that such notes will be more acceptable because the facilities for handling them will be greater. They can be more easily turned into cash. Under these conditions such notes should bear a lower rate of interest, and here is where the advantage to farmers will come in if it comes at all. That remains to be seen. Farmers should be posted on this point when giving their notes for implements.—The Farmers' Review, Chicago.

True Secret of Keeping Youthful Looking

(The Beauty Secret.)

"The real secret of keeping young-looking and beautiful," says a well-known hygienist, "is to keep the liver and bowels normally active. Without these requisites, poisonous waste products remain in the system, polluting the blood and lodging in various organs, tissues, joints. One becomes flabby, obese, nervous, mentally sluggish, dull-eyed, wrinkled and sallow of face."
"But to get liver and bowels working as they ought, without producing evil after-effects has been the problem. Fortunately, there is a prescription of unquestioned merit, which may now be had in convenient tablet form. Its value is due largely to an ingredient derived from the humble May apple, or its root, which has been called 'vegetable calomel' because of its effectiveness—though, of course, it is not to be classed with the real calomel of mercurial origin. There is no habit-forming constituent in 'sentinel' tablets—that is the name—and their use is not followed by weakness or exhaustion. On the contrary, these harmless vegetable tablets tend to impart tone and elasticity to the relaxed intestinal wall. Sentinel tablets, which may be procured from any druggist—a dime's worth will do—will prove a revelation to any constipated, liver-troubled person."

The Constipation Curse

Constipation—clogged bowels cause pain and sickness; 95 per cent of our ills, say the authorities, Sentinel Laxatives bring quick relief. All vegetable—contain no calomel. Ten doses for a dime at any druggist. Physician's sample free, upon request, if you mention this advertisement. The Sentinel Remedies Co., Inc., 800 Madison Ave., Covington, Ky.

Get a tube today, read the folder about the most general disease in the world. Start the Senreco treatment tonight. 25c at your druggist. For sample send 4c stamps or coin, to The Sentinel Remedies Co., Cincinnati, Ohio.

Limestone

OUR SEWER SYSTEM.

CHAPIN.

Could L. M. Olmstead come back to earth he could with wonderful assurance say, "I told you so." When sewers were first broached in the city he was a member of the council and being a practical civil engineer he besought the city fathers to adopt an adequate system and work to it making all sewers of suitable size and conforming to a regular system which would be sure to do the work. The members of that council are nearly all dead and hence they will not be criticized but the fact is they did a lot of work for immediate needs rather than for the future and the fearful inadequacy of the system, if such it may be called, is daily apparent. One gentleman living on North Diamond street says there are several inches of water in his cellar and it is known that much of the north side sewer work is deficient.

A few years ago there was a proposal, in accordance with plans prepared by C. W. Brown, to construct a trunk sewer for the south half of the city, the work to be along the bed of the brook. This would have accommodated the Jacksonville State hospital and all that half of the city but the proposed bond issue was voted down. The city council is doing what it can but a hard task is before it. To reconstruct the sewers would be fearfully expensive and inconvenient as so much pavement would have to be torn up so the city will have to get along as best it can.

When the water works were first contemplated the best authority in the city said we better make Morgan lake large enough for in time Jacksonville might use 125,000 gallons of water a day. How little those wise men thought that the city would use \$80,000 gallons daily and desire to be in a position to get more if need be. It is hard to anticipate the future but the sewers should have been made larger and better, the same as may be said of the water main leading from the north pumping station.

COUNTY DENTAL SOCIETY IN SEMI-ANNUAL MEETING.

Members of the Morgan County Dental society met for six o'clock luncheon Thursday evening at the Dunlap hotel and assembled afterward in semi-annual business session. Officers were elected as follows: President—Dr. A. B. Carey, Pittsfield. Vice-president—Dr. Joseph Terney. Secretary-treasurer—Dr. Alpha B. Applebee.

VISITED SCHOOLS.

William L. Allcott and his fellow manual training teachers of the Joint schools, are enjoying a jaunt visiting the similar places of instruction in Oshkosh and Milwaukee, Wisconsin and in Chicago.

Mr. and Mrs. Leslie Dickey are here from Texas for a visit with relatives and friends. Mrs. Dickey was formerly Miss Ruth Biggers.

The C. W. B. M. of Chapin Christian church met Wednesday afternoon with Mrs. B. J. Taylor.

The Ladies' Aid society of the Methodist church held an all day meeting Thursday at the parsonage. The day was spent in quilting for Mrs. H. O. Smith.

Miss Gladys Knopp was a visitor in Jacksonville Wednesday.

The body of Mrs. Benjamin Flanagan was sent Wednesday evening to the home of Mrs. George Kneeland of Griggsville, a sister of the deceased. The funeral will be held in Griggsville Friday.

Arthur Perbix is kept at his home with lagrippe.

Mr. and Mrs. Chester Johnson, who were married Wednesday, are moving into the Berger house in the west part of town.

HELD ELECTION.

The brotherhood of the Methodist church of Franklin held an election recently as follows:

President—Claude Jolly.
Vice president—W. N. Luttrell.
Secretary—George Schaaf.
Treasurer—H. M. Tulpin.
Teacher—M. B. Keplinger.
Chairman Devotional committee—George Leak.
Chairman of social committee—Edward F. Seymour.
Chairman membership committee—Lewis Roberts.

Mrs. Harlan Roberts of Franklin was visitor in Jacksonville yesterday.

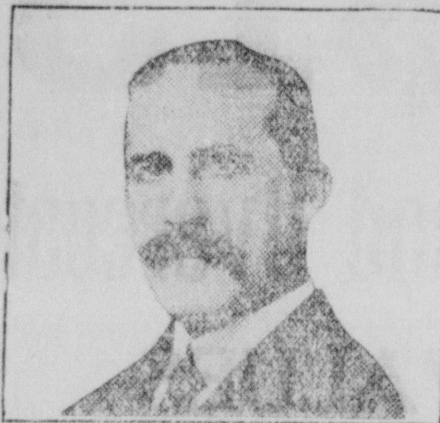

BRONCHITIS SUFFERER

Cured by a Simple Remedy. Columbus, Ga. "I am telling everybody what Vinol has done for my husband. He had a bronchial cough, his system was run-down and I felt sure he would die. His father insisted on his trying Vinol, and I am so thankful he did, because it cured his cough and built him up. My doctor highly recommends it and said he could not take anything better." Mrs. Thomas Monk.

Vinol, you know, contains the real cod liver curative extract, together with peptonate of iron, and beef-peptone, it enriches and revitalizes the blood and conveys to the system the vital elements necessary to strengthen the body and throw off the disease. That is the reason it was so successful in Mr. Monk's case. Anyone in Jacksonville who has bronchitis, a chronic cough, or needs building up, may try a bottle of Vinol, with the understanding that his money will be returned if he is not satisfied.—Lee P. Allcott, Druggist, Jacksonville, Ill.—Adv.

SOUTHERN DRUG MERCHANT MAKES UNUSUAL STATEMENT

Great Business Losses Due to
Neglect

W. WITHERS MILLER

President of the Polk-Miller Drug Company, Richmond, Va., is authority for the following extraordinary statement:

"I estimate that the business men of this country could increase their efficiency fully ten per cent by taking an occasional laxative and not neglecting the bowels as most of them do."

He also said that if the Department of Commerce in Washington would present each business man in the country with a box of Rexall Orderlies, it would be of great benefit to the national welfare. Rexall Orderlies are prompt in action, pleasant to take and never gripe, can be used by men, women or children, and are just the thing for toning up sluggish livers.

We have the exclusive selling rights for this great laxative. Trial size, 10 cents.

WOMEN IN THE NEWS.

Minneapolis.—One of the most interesting events in musical circles in this city was the return to the scene of her girlhood efforts of Olive Fremstad, who sang last week with the Minneapolis Symphony Orchestra. In her girlhood days here, when her great voice was yet undiscovered, she played a violin in a little mission orchestra. Her struggles for a musical education make a romantic story. The young woman was encouraged by friends back in 1886 to cultivate her voice. Then they aided her to go to New York to study. From that time her rise was rapid, and Minneapolis gave her a rousing reception last week.

Washington.—Leading women from many states are gathered for the meeting of the National Council of Women, which opened here yesterday. The Council includes in its membership practically every organization in the United States devoted to the advancement of the interests of women and the public welfare in general. From its first meeting in 1888, called by Elizabeth Cady Stanton, Susan B. Anthony, Rachel G. Foster, May Wright Sewall and other prominent women of that time, the council has increased in scope and influence until it has developed the International Council of Women with members in all parts of the world. Lady Aberdeen, who is president of the International Council, presided at the opening session yesterday. The officers of the National Council include Mrs. Kate Waller Barrett, of Alexandria, Va., Emma E. Bower of Port Huron, Mich., Miss Sadie American of New York, Mrs. Dexter Rumsey of Buffalo, Mrs. Flo Jamison Miller of Monticello, Ill., Mrs. Josie Nelson of Union City, Ind. and Mrs. Amasa M. Eaton of Providence, R. I.

Chicago.—Miss Ida May Swift, known as one of the prettiest girls of the Middle West, will be married on Saturday to Count James Minotto of New York, the son of Count and Countess Minotto of Venice. Miss Swift is a striking beauty and stands nearly six feet in height. Her blue eyes and raven black hair have attracted the eye of artists, and her head and shoulders were reproduced by a noted sculptor. The love affair between the Count and Miss Swift was a surprise in Chicago. They had met only a few weeks before their engagement was announced. It had been rumored that Miss Swift would wed a prominent Chicagoan. The Count will take his bride to South America, where he will be financial representative of a New York trust company. The Count came to America to study banking, and is quite taken up with American ways. The ceremony will take place at the residence of the bride's parents, Mr. and Mrs. Louis F. Swift.

SAILORS IN CITY.

Four sailors were in the city Tuesday on their way from Galveston to New York. The ship they left had a crew of forty-six men and all were making their way as best they could to New York to see if safe passage for their ship across the ocean could be secured. The company owning the vessel had lost one a few weeks before and was determined to be sure of getting insurance on this craft before setting sail.

DON'T SCOLD MOTHER! THE CROSS CHILD IS BILIOUS FEVERISH

Look at tongue! If coated, clean little stomach, liver and bowels. Don't scold your fretful, peevish child. See if the tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow; but get the genuine. Ask your druggist for a 30-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup. adv.

OUCH! MY BACK! RUB LUMBAGO PAIN AWAY

Rub Backache Away With Small
Trial Bottle of Old "St. Jacob's
Oil."

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacob's Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints. Adv.

THREE BASKETBALL GAMES THIS WEEK

EUREKA COLLEGE PLAYS HERE
THIS EVENING.

Jacksonville High Goes to White
Hall Tonight and Springfield Sat-
urday Night—Routt College Plays
Tallula Tonight.

Basketball fans will be interested in the four games to be played Friday and Saturday in which Jacksonville teams figure. Tonight Illinois College meets Eureka college in Armory hall and Jacksonville high will go to White Hall to play a return game with the five of Greene county. Tonight Tallula High comes for a game with Routt college, to be played in Liberty hall. On Saturday night Jacksonville high goes to Springfield.

Illinois vs Eureka.

With the close score of last week against Charleston, Illinois men have been doing some real practice since and against the Eureka five ought to give a good account of themselves. The Armory hall has become a favorite place for the lovers of the pastime to meet and no doubt a large crowd will witness the contest.

Routt vs Tallula.

Another game tonight. Routt vs Tallula promises to afford some real sport. Routt defeated the strong Business college team of Springfield and now are going into their second game. The team has been somewhat broken up on account of illness and it is probable that three second string men will be used. Tallula has won the last two games they played so from dope a scrap is assured.

J. H. S. to White Hall.

Jacksonville high school students are concentrating their thoughts on the game at White Hall tonight. It is probable that Coach Huber will take down some second string men and use them as much as possible, for on the following night, Jacksonville has to play against Springfield at Springfield. Jacksonville will give the Capital City lads a hard run for the honors for this event. Springfield mixes with the strong Decatur team, one of the best in Central Illinois.

Basketball Situation.

The Springfield News-Record in looking over the basketball situation in Illinois says: With the basketball season fairly well advanced, several teams are showing themselves to be strong contenders for the district championships to be held next month. In the central district, which includes Bloomington, Decatur, and surrounding cities, there are four teams which seem to be exelling the other teams in the section. Of these Bloomington would seem to be the strongest, as they showed their superiority over Springfield by winning a decided victory Saturday night. The importance of this victory is somewhat lessened due to the fact that the game was played on Bloomington's own floor, which was only about half as large as the floor on which the Red and Black are accustomed to play. But nevertheless, it was a victory. Decatur also has a good team this year. It is practically made up of ten men, each one of which has had experience and plays a steady game. West is one of the best forwards in central Illinois, and Getford is another star player.

A good comparison between the merits of the teams can be made after the game which will be played between Decatur and Springfield on Friday night. Bloomington won from Springfield by a score of 31 to 17.

Lexington and Bellflower must also be considered as contenders for the central tournament. Lexington had a strong team last year and has nearly the same men on it this year. Lexington also has a game scheduled with Springfield in the near future. Bellflower has been winning its games right along, defeating Clinton 18 to 10 and Farmer City 56 to 6.

Praises Jacksonville.

In the western district Springfield, Jacksonville, Griggsville and Pittsfield, all have strong teams and these will make the tournament very exciting. Griggsville has been winning nearly every game it has played and Pittsfield has an excellent team, most of whom are experienced men. Last year Pittsfield ranked third in the district tournament. Jacksonville has one of the best teams this year that it has ever known. Springfield will meet Jacksonville Saturday evening in the auditorium at the high school and this will help to clear up the question of supremacy between the two.

In the southeastern district Shelbyville seems to have everything its own way. It defeated Pawnee on Pawnee's floor by an overwhelming score last Saturday.

In the extreme south Carbondale university high will probably win its district championship as it did last year.

Hard Race in North.

There is a hard race going on in the north just now and it is hard to see any teams that show much supremacy. Rockford gave Engelwood a severe defeat last week and apparently has one of the strongest teams in the northern part of the state. More good teams are in evidence now than at any other period for some years. It is a sure thing that the state tournament will be one of the most hotly contested for years.

Mrs. George Hoeking expects to leave this morning for a visit of several weeks with her sister, Mrs. M. Oberlin at Jerseyville, Ill.

Fighting Old Man Trouble

The Tale of a Series of Trying Circumstances Finally Brought to an End.

Did you ever know of a man, or a business, that was able to run along day in and day out, year in and year out, a stranger to trouble?

No matter how well guarded against or provided for, Old Man Trouble is certain to come—sometime, and when and where least expected. Especially is this true of large business when improvements have become necessary and the installation of new and additional equipment expedient.

During the past year Your Utilities Company, in providing for the ever-increasing demand for its product, has labored under many most discouraging and embarrassing difficulties—stunts pulled off by Old Man Trouble that the most experienced engineers never had dreamed could happen, and for which new names had to be coined.

But through it all Your Utilities Company has kept in mind the one object for which it was created—service first—and has left nothing undone to discover the reason why of Old Man Trouble and to eliminate him. Your company believes now that it has been accomplished. Of course, accidents may happen; machinery will break, wires will snap, parts will wear out, and occasionally the human element in the whole structure will "fall down" hard; but, that a wholebook of mysterious and puzzling catastrophes can again happen is not believed.

Your Utilities Company realizes that the stunts of Old Man Trouble have been most exasperating to the public, and they have been equally hard to explain satisfactorily. Old Man Trouble has strained the temper of a usually patient and good natured public to almost the breaking point; he has worn us to a frazzle. But we have won, and if in the future we are able to make good our motto—"Service First"—we shall be content.

While the public generally has been most patient and considerate during these trying times, we ask yet a little consideration in the matter of complaints. The ordinary employe is not trained to be diplomatic; it is not expected that he would be; he has many trying conditions to contend with in a day's work; so, if there arise occasions when it would appear that an employe has not been fair or has not attended strictly to his duties, we ask that you come to headquarters and tell the proper official frankly all about it. Such an act will not be construed as a "knock" against an employe and will not get him "fired" the first nor the second time, but it will enable the official responsible to locate the real cause of trouble. It may happen the employe complained of is not really at fault; perhaps he has too much placed upon him, with not enough co-operation from higher up. So, no matter what the trouble may be, no matter what department, no matter what individual employe, no matter what the company's apparent policy, if the aggrieved will come to headquarters and state his case honestly, frankly, in full detail, together with his idea of a remedy, ninety-nine per cent of all our difficulties will vanish. Give this last thought some study to see if you cannot agree with us. The man above, the man responsible, cannot be entirely alive to the best interests of the public he desires to serve and to the company which pays him, if he has not the hearty co-operation of that public.

During the past months we have installed much new equipment, made many changes; more recently we have added other expensive equipment, all looking to better service; have secured new and experienced engineers, and have done our part toward making our service a real service. We shall not stop there, but have in mind greater improvements and extensions, in the street railway and in the other branches of our service, just as soon as it is at all possible and practicable. We, Your Utilities Company, and you, the Public, should be a mutual organization, because neither can be advanced without the hearty assistance of the other.

Your Utilities Company,

Jacksonville Railway and Light Co.

IRRITATION AS CAUSE

OF CANCER.

Boston, Jan. 13.—That cancer is the cause of about 100,000 deaths each year in the United States and is on the increase is the statement of Dr. Robert B. Greenough, during the first of the annual series of free public lectures at the Harvard Medical school. Experts are agreed today, he said, that long-continued irritation in one spot is usually the cause of cancer. As a curious proof of the theory, he cited the natives of Cashmere, where 70 per cent of the victims have cancer on the outside of the stomach, owing to their habit, in crossing the mountains, to weep warm in the higher altitudes by means of little tin boxes filled with glowing charcoal, which are worn inside their clothing, pressed against the stomach.

Dr. Greenough also told his public audience that even radium and the X-ray, which cure cancer, may also cause it, if used too freely. "So powerful is the effect of the X-ray," he said, "that the skin of a man of 25, who is constantly employed in administering the rays, will be come withered up like that of a man 95 years old."

That cures with radium and the

X-ray are apt not to be permanent was another statement that caused much interest. The surest cure, the physician explained, is an operation. With the present hospital facilities in the larger centers, he advocates operations as the effective means at hand within reasonable cost, to eliminate cancers.

Lip-cancer, one of the commonest forms, Dr. Greenough ascribes in constant pressure of the lips in pipe smoking in many cases. Another form of face cancer he says is due to a jagged tooth constantly irritating the inside of the cheek. He urged that the slightest soreness in either of those places be looked after, as cancer can nearly always be eradicated by an operation if taken early enough.

FIRE CAUSES HEAVY DAMAGE

Ottumwa, Iowa, Jan. 13.—Fire today destroyed F. J. Graves cigar factory and did damage to the M. P. K. L. Cigar Factory. Neimeyer Brothers Paper Box factory and Finney Hide Plant and Lagomarcino Grupe's Wholesale Fruit Store, with a total loss of \$30,000 partly insured. State Fire Marshal Zimmerman is now here investigating a \$400,000 fire which occurred last Tuesday.

Your Dead are Sacred to You

Earth destroys wood in about four years or a little over according to its preparation. Steel lasts a little longer.

Cement Lasts Forever

Cement Gets Harder with Age

It keeps out animals, tree roots and dampness. Use a Cement Reinforced Burial Vault and be satisfied.

THURSDAY IN CONGRESS.

Met at noon.
Senator Stone submitted statement from Secretary of Commerce regarding munitions and other exports.

Postmaster General Burleson discussed administration bills before postoffice committee.

Senator Lewis introduced resolution to authorize use of army and navy in restoring peace in Mexico as they are being used in Haiti and Nicaragua.

Senator Harding introduced a resolution to encourage teaching of Spanish in public schools.

Senator Sherman, Republican, assailed the tariff and the administration policies.

Senator Macomber introduced a resolution to instruct the president to call a convention of nations to draft international laws, provide international peace and disarmament.

Adjourned at 4:42 o'clock until noon Friday.

House.

Met at noon.
Representative Harrison rebuked administration's foreign policy and made plea for harmony.

In speech on Mexican situation, Representative Slayden, of Texas, defended administration recognition of Carranza and said time had come for Pan-American Union to restore peace in Mexico.

Representative Bennett asking appropriations for a 35-foot channel in New York Harbor declared the lack of it was responsible for freight congestion there.

The leasing bill was debated further without action.

Representative Moss of West Virginia introduced a resolution for armed interference in Mexico.

Governor Yager of Porto Rico told the insular committee that education was the solution for the island's difficulties.

Agricultural committee worked on the grain grading bill.

Adjourned at 5 p. m. to noon Friday.

Mrs. Sarah Hoban expects shortly to go to Florida to visit her daughters Sarah and Mary who are employed there.

IN FIVE MINUTES! NO INDIGESTION, GAS OR SOUR, ACID STOMACH

The Moment "Pape's Diapiesin" Reaches the Stomach All Distress Goes.

"Really does" put bad stomach in order—"really does overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapiesin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, indigestible food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapiesin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapiesin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or night. It's the quickest, surest and most harmless stomach regulator in the world.—Adv.

WOMAN WEAK, DIZZY, NERVOUS

Health Restored by Lydia E. Pinkham's Vegetable Compound.

Jamaica, N. Y.—"I suffered greatly with my head and with backache, was weak, dizzy, nervous, with hot flashes and felt very miserable, as I was irregular for two years. One day when I was feeling unusually bad my sister-in-law came in and said, 'I wish you would try Lydia E. Pinkham's Compound.' So I began taking it and I am now in good health and am cured. I took the Compound three times a day after meals, and on retiring at night, I always keep a bottle in the house."—Mrs. L. N. BURNHAM, 35 Globe Ave., Jamaica, N. Y.

Women who recover their health naturally tell others what helped them. Some write and allow their names and photographs to be published with testimonials. Many more tell their friends.

If you need a medicine for Women's Ailments, try Lydia E. Pinkham's Vegetable Compound. Write Lydia E. Pinkham Medicine Co. (confidential) for anything you need to know about these troubles.

MR. COBURN DECLARES GREAT BENEFITS COME FROM ALFALFA

Former Secretary of Agriculture in Kansas also Strong Advocate of Hog as Profitable Farm Animal.

Columbus, O., Jan. 13.—Farm miracles can be worked with alfalfa. F. D. Coburn, former state secretary of agriculture in Kansas, said today in an address at the annual meeting of the Ohio board of agriculture. The grass serves the triple purpose, he said, of rejuvenating the ground on which it is grown, making a profitable crop and giving more nutriment for live stock than any other forage crop.

Dean Alfred Vivian of the college of agriculture, Ohio State University, told the farm institute workers, county fair managers and farmers who attended the meeting, that soil fertility cannot be maintained without use of phosphates under all circumstances. The use of nitrogenous material and potash depends on local conditions, he said.

Other speakers on the program were Governor Willis and President John Beggs of state board of agriculture.

Mr. Coburn, referring to the benefit of alfalfa growing to soil said: "Alfalfa roots penetrate the earth to depths unknown by any others. They assimilate mineral elements of the lower subsoils not otherwise available, bringing them to the surface converted into merchantable commodities. They drive their way downward in every direction and in the natural processes of decay a part of them are always dying. The soil is honeycombed with these vegetable pipe lines thru which the rains filter and carry fertilization from the surface.

"The unique characteristic of this plant as a fertilizer is that it gathers 10 times as much nitrogen from the air as it can use and the surplus is deposited in little nodules in the roots. To rejuvenate a tired or subdue a hard, dry stubborn soil, shoot it full of alfalfa roots. They constitute the perfect deep tilling machine."

Mr. Coburn said lands worth only \$5 an acre have been sold repeatedly for \$40 or more an acre when seeded in alfalfa. He quoted government reports to show that the per cent of protein in alfalfa hay is 14.3, as compared with 12.2 in wheat bran, 12.3 in clover and 5.9 in timothy.

Failures in growing alfalfa are caused only by carelessness by the farmer, Mr. Coburn asserted. He deplored the purchase of poor seed by many inexperienced alfalfa growers.

America has been made strong by the hog more than any other single influence, according to F. D. Coburn, former secretary of agriculture in Kansas, who tonight addressed the final session of the Ohio board of agriculture's annual meeting on "Some Patriotic Considerations of the Hog."

"Hogs pay the taxes, clothe the family, send the children to school, and make possible the development of new homes," said Mr. Coburn. "They have provided the food for the Anglo-Saxon race. Without them Chicago would be a prairie village, Kansas City a barren hill, and Omaha a ferry crossing. Take away the sow and our banks would close and the wheels of commerce cease to turn.

"The pig is a quiet, inoffensive, Christian sort of animal, symbolic to a greater extent of the peaceful virtues for which our nation is so conspicuous than is the roving piratical eagle. The snout inverting the soil is a symbol of peace and industry. The pig is a thrifty animal, turning to good account everything which comes his way, and a far better representative of the American character than the roving robbing eagle.

"The hog is a condenser; he is a manufacturer of hams, hash and head cheese, lard, illuminating oil, hair brushes, liver pudding, tooth brushes, glue, buttons, bacon, bristles, fertilizers and fats, knife handles, whistles, soaps, sauce, side meat, saddle covers and sausage. He is a mine and the yellow corn of our country is the bullion he transmutes into golden coin.

"In the American hog we have an automatic combined machine for reducing the bulk in corn and enhancing its value. It puts ten bushels of corn in a space of less than a bushel measure and in so doing quadruples the value of the grain."

INSPECTED HOME.

L. Goheen has returned from Quincy where he went as one of the committee of the G. A. R. to inspect the state Soldiers' and Sailors' home at that place. The entire committee consisted of sixteen members and all were cordially received by Superintendent Andrews and escorted by him on their tour of inspection, of the numerous cottages, hospital, and other structures, all of which they found in the best of order, neat and clean, and the occupants well contented.

There are in the home 1,292 soldiers and their average age is seventy-seven years and one is there whose age is said to be ninety. There are in the home three hundred women, some of whom are with their husbands and others are soldiers' widows.

Mr. Goheen had a very pleasant visit with two of his company comrades whom he had not seen since they were mustered out in 1865.

A committee of which Mr. Goheen was a member, and which was appointed for the purpose, adopted a resolution asking the state board of administration for an appropriation of \$50,000, or as much thereof as may be needed for a hospital building.

Fourteen of the committee were very pleasantly entertained at dinner by Superintendent Andrews and his excellent wife at their cottage.

C. E. Gann of Bonmouth was transacting business in the city yesterday.

COUNTY COURT COMPLETES DOCKET AND ADJOURNS

Jury Fails to Agree in Konrad Case—Sylvanus McDaniel Was Found Guilty.

Judge W. E. Thomson completed the docket of the county court Thursday and adjourned court shortly after noon. The last case tried was that of Levy and Schild vs. Isaac Worfolk which was an appeal from the justice court. The suit was the result of a disagreement over an account. The court instructed the jury to return a verdict for the plaintiffs in the sum of \$60, and relax costs.

In the case of John Konrad, the jury after remaining out all night came into court about 12 o'clock noon Thursday and informed the court no verdict could be reached. The jury was discharged. It is understood that on most of the ballots the vote stood six for acquittal and six for conviction.

The case of Sylvanus McDaniel charged with wife and child abandonment which was started late Wednesday afternoon was completed Thursday morning. The jury returned a verdict that McDaniel should pay the sum of \$6 per month for a period of one year, one half to be paid on or before the 10th and the other half on or before the 25th of each month, the first payment to be made February 10, 1916. A fine of \$200 and costs was also assessed and a capias pro fine issued at the request of the state's attorney.

FREE LUNCH FOR BIRDS.

With the arrival of cold weather most of us become more interested in good things to eat. Not only do we think we need more meat, but we like something not both to drink and to eat, not only once, but usually three times a day. In addition to the regular good feeding required in cold weather, we have set aside several feast days on which we tax our eating capacity to the limit of both comfort and health.

Also we waste a lot of perfectly good food which we could give to the birds. It has become popular to know something about birds and they have many interested friends who remember that after the cold becomes severe and the deep snows arrive it is difficult for many of the birds to find sufficient food. The Audubon societies and other bird friends are each year providing food for all kinds of winter birds with very wonderful results. There is scarcely a back yard where shrubs and trees have been planted that is not visited at some time in the winter by a hungry bird.

The Illinois Audubon society desires to interest all who have an opportunity to feed the winter visitors to share their good things with these interesting and valuable friends. A piece of suet tied to a tree, seeds and crumbs scattered in the yard, a feeding shelf on a window ledge or attached to a tree will repay many times the effort in the pleasure you will derive from the entertainment. Chickadees, nuthatches, juncos, tree sparrows, the downy woodpecker, bluejays and in some suburbs the cardinal are among the possible visitors who may call on you.

Any one who has the opportunity to spread a "bird table" in a convenient, sheltered place, where it cannot be reached by stray cats, will only be paying back a fraction of the debt we owe to our feathered friends for the efficient care with which they search the trees and shrubs for insects and eggs that have been carefully hidden away until next spring, when they would again ravage yards and gardens if not destroyed.

Please try it. You will be surprised at the pleasure and results which will surely follow.

Orpheus M. Schantz,
President Illinois Audubon Society, Chicago.

MAY REORGANIZE THE U. S. GOLF ASSOCIATION

Chicago, Jan. 13.—Delegates from many golf centers have already arrived in town for the opening session tomorrow of the annual meeting of the United States Golf Association. The future of the organization is in the balance, for an attempt will be made to give the allied clubs a voice in the control of the Association, thus breaking the small ring which has controlled the sport in America. The Association is now 22 years old, and the growth of the sport in all sections has been phenomenal. The original governing board system is still in force, but the radicals are out in force to bring about changes that will give the smaller clubs of all sections a voice in the Association.

The nine courses which will be submitted to the delegates as candidates for the three national championships have already been announced. For the National Amateur meet, the Merion Cricket Club of Philadelphia is conceded to be the best bet, but the Nassau Country Club and the Piping Rock club are also candidates for this tournament.

There are two Western courses out for the National Open, and one eastern club. The Minneapolis Country Club of Minneapolis and the Country Club of Detroit are the western rivals, and the Englewood Country Club of New Jersey is the hopeful contestants for the big event.

The women's championship is sure to go to New England, either to the New Haven Country Club, the Greenwich Country Club, or the Belmont Springs Club, at Waverly, Mass.

The amending of the constitution to give the allied clubs greater voice in golf matters will be the main issue at the annual meeting. Under the present classification, there are two divisions—active clubs and allied clubs. It is proposed to give the allied clubs one vote each on all mat-

ters in which the active members have heretofore exercised absolute control. To offset this in some measure, the active clubs will be entitled to two votes each. There are nearly 300 allied clubs, while the double allowance to active clubs will not furnish a voting strength of over 200. If this particular amendment is carried, it will mean a revolutionary change in the character of the association; but, it is predicted, that the policies which the old active members have used, urged and upheld as tending toward the betterment of the game, will continue as the guiding spirit.

Those who will lead the attack in favor of the amendments have drawn up a series of arguments to show that their cause is right and must prevail. The opposition is expected to center in the older members of the Association, who point with pride to the growth of the game under the present system.

Moe S. Meyer has returned from a vacation which was spent at his home in Rochester, N. Y. While absent he also was in New York City on business for J. Capps & Sons for whom he is designer in the clothing department.

PHOSPHORUS

The limiting factor in crop production on 90 per cent of our farm lands can be supplied by finely ground Rock Phosphate at one-fourth its cost in any other form.

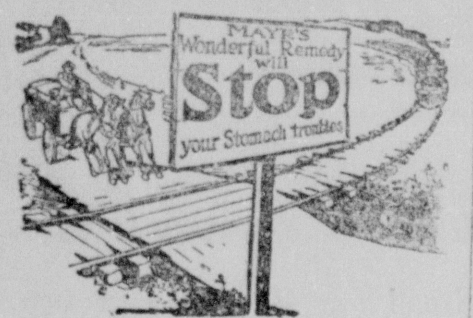

LIMESTONE DUST is absolutely essential for success in growing legumes, clover, alfalfa, or sweet clover. Don't waste your seed by planting in sour land. We will test your soil free of charge.

It rarely ever fails and those afflicted with Stomach, Liver and Intestinal Ailments, Indigestion, Gas in the Stomach and Intestines, Dizziness, Fainting Spells, Colic Attacks, Torpid Liver, Constipation, etc., should by all means try this remedy. Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

For sale by druggists everywhere.

MANY CITIES HAVE PLAYGROUNDS MAINTAINED IN NEIGHBORHOODS

Census Figures Show More and More Attention Given to Recreational Plans.

Four hundred and thirty-two American cities maintained neighborhood playgrounds under the direction of play leaders during the year which ended November 1, 1915. During the last two years 116 cities have established playgrounds. The number of new playgrounds secured is nearly 1,000, bringing the total number of playgrounds now in operation up to 3,294. When the Playground and Recreation Association of America was organized less than ten years ago, only a few of the larger cities ever had summer playgrounds and many of these were supported by private funds. Now 111 cities employ 1,053 play leaders throughout the year. Reports from 97 cities where the neighborhood playgrounds are open throughout the year showed 573 year-round playgrounds. In 250 cities, more than half of the 432 cities, playgrounds, like parks and schools, are administered by the municipality itself. Everywhere city governments are recognizing that the maintenance of neighborhood playgrounds is a regular government obligation.

Seventy cities maintain classes for training recreation workers. Two thousand one hundred and sixty-four students are reported in 55 of these cities. A new profession has grown up. Within two years the number of play leaders increased 1,189 so that there are now 7,507 workers employed in addition to 1,929 caretakers.

Four Million Dollars Expended

Last year the expenditures reported in the cities of America were \$4,066,377.17. In addition the Playground and Recreation Association of America spent \$82,505.79. In 19 cities bond issues for recreation purposes were authorized, the bond issues authorized in 17 of these amounting to \$1,663,750. In 49 cities neighborhood playgrounds have been donated to the city by private individuals, the value of this property in 18 of these cities is \$497,100.

Six hundred and twelve school buildings are reported to be in use as evening recreation centers. In 136 cities. Fifty-five cities report 146 buildings which are set aside and wholly given over as neighborhood recreation center buildings. In 25 cities streets are set aside for play. One hundred and thirty-nine cities have 306 swimming pools. Ninety-four cities reported 314 public baths.

Daily Attendance More Than 800,000 The average daily attendance on the summer playgrounds in 359 cities reported was 814,108. Ninety cities reported an average daily attendance at winter centers of 200,478.

The Playground and Recreation Association of America corresponded with more than 600 cities and towns which have not yet secured a single playground. In addition to the 432 cities which have playgrounds, there are 328 cities which do not have playgrounds and play leaders which report some progress, such as land secured, an appropriation made, or plans laid, so that 779 cities were active in one way or another in the play movement last year. Reports were received from 1,387 of the 1,750 cities from whom information was sought.

Within less than six years the national association has been in correspondence with about 22,500 different persons in the cities of America and last year trained field secretaries from the Association worked in 61 cities. Among the leaders in the Playground and Recreation Association of America are: Joseph Lee, Boston; Henry P. Davison, New York; Robert Garrett, Baltimore; Gustavus T. Kirby, New York. The main office is 1 Madison Avenue, New York. There are branch offices in Chicago and Birmingham.

Harrison Davenport of the east part of the county was attracted to the city yesterday by business affairs.

SPECIAL TAX NOTICE.

Notice is hereby given, to all persons interested, that the City Council of the City of Jacksonville, Illinois, having ordered the roadway of East 8th Street in said City, beginning at the East line of Alley 'D' where the same intersects said East 8th Street, and running thence East to a point eighteen (18) inches West of the west rail of the tracks of the Chicago, Burlington & Quincy Railroad Company, be paved with crushed stone and a coal tar compound binder, the same width as the present pavement, except the right of way of the Jacksonville Railway Company, which shall be paved with brick upon a crushed stone and concrete foundation after being excavated seventeen (17) inches below the finished grade of the pavement, all of which is more particularly described in the Ordinance therefore; the Ordinance for the same being on file in the office of the City Clerk of said City, and said City having applied to the county court of Morgan county, Illinois, for the confirmation of the assessment of the cost of said improvement according to the benefits and an assessment therefor having been made and returned to said Court; the final hearing thereon will be had on the 26th day of January, A. D. 1916, at 10 o'clock A. M., or as soon thereafter as the business of the Court will permit, and all persons desiring so to do may file objections in said Court before said date, and may appear on said hearing and make their defense.

It is further provided by said ordinance, that said assessment shall be collected in ten (10) installments, with interest at the rate of five per cent. per annum, as provided by law.

Dated at Jacksonville, Illinois, this 10th day of January, A. D. 1916. Walter B. Rogers, Commissioner appointed to make said Assessments.

FOODS

THEY BUILD OR DESTROY
Amazing but Rarely Suspected Truths About the Things You Eat.

(Copyright, 1916, by Alfred W. McCann.)

Chaptr. 6.

Hundreds of foods consumed regularly by children will kill chickens in six weeks.

If a worn-out body, suffering thru low resistance with tuberculosis, can be cured by nature's methods, what is society's justification for permitting tuberculosis to develop, in the first place?

Go to the morgue. Witness the autopsies. Ask the surgeons what caused the scars in the lungs or the glands of this or that body. They will tell you that scar is a healed wound. It is a calcified lesion. That body once suffered with tuberculosis. It did not know it suffering and was cured. It was one of the thousands of cases of accidentally renewed vitality overcoming the ravages of tuberculosis and pulling out the peg.

These articles, dealing with pure food, will trace that fortunate accident that pulled the peg, locate it, reduce it to a law and make plain the natural process of nutrition which easily understood and applied, can be substituted for the unhappy chance that sometimes intercepts the journey of a useful creature on his way to death with that removable peg undisturbed.

The proper way to teach the mysteries of food is in the school, but even we who were not taught there can begin now to learn, with inevitable increase in the number of our days and blessing untold to our children.

Food news is glad news when we get it uncolored, untainted, and unrefined. It is the purpose of these articles to give it to you in that way. The food faker is no longer permitted to kill chickens but he may kill babies. This is a hard saying, but 3,000 dead chickens in a heap prove its truth.

A thriving chicken farm, doing a business in New Jersey that made its owner happy, had had splendid success. The bulletins issued by the government's printing press had passed the wisdom of trained minds into the chicken coops and the wee chicks thrived.

Then came a "poultry food" from a big wholesaler. It was well labeled. No questions were asked. Feeding time came, the baby chickens ate. They continued to eat.

The labels on the sacks contained a statement indicating that those sacks were made up of fixed quantities of protein, carbohydrates, and fats, in strict accord with the high-sounding scientific formula. Five days passed. The wee chicks seemed listless. Ten days passed. Some of them were dead. On the fourteenth day all of them were dead.

A sample of the food was then analyzed. The laws of chicken nutri-

tion actually a federal force and nothing else. It should be controlled and paid by the federal government and subject to the orders of the federal government. The government would assume the whole burden, including the care and maintenance of armories and other state plants in exchange for a revocable license from the state to use such armories and plants.

The commission expresses its faith in the voluntary enlistment system to fully recruit the ranks under the new stimulus which the federal control should create.

MEMPHIS SOCIETY WEDDING.

Memphis, Tenn., Jan. 13.—Mrs. Evelyn Peters Eates, a prominent clubwoman of this city, will become the bride of Charles N. Murch, chief counsel of the Illinois Central R. R., today. Both are well known here and in Louisville, and many prominent guests will attend.

BAY STATE TAX COLLECTORS MUST COLLECT OR PAY.

Boston, Jan. 13.—Three Massachusetts towns, Milton, Deerfield and Harwick, have brought suits against their tax collectors for the amounts assessed which they failed to collect. Some of the unpaid taxes are for the years 1910 and 1911.

PAYMENT OF SPECIAL ASSESSMENT FUNDS OF THE CITY OF JACKSONVILLE, ILLINOIS

Notice is hereby given that the following special assessment bonds are called for payment, according to law, at the office of the City Treasurer, at the Ayers National Bank, of the City of Jacksonville, Illinois, on February 10, 1916, and that interest on the following bonds will close on that date:

Cox Street and Doolin Avenue Sewer. Assessment No. 128. Bond 5, series 3, Installment 4, \$200.00.

East College Street Pavement. Assessment No. 117. Bond 14, Series 7, Installment 8, \$100.00.

East Court Street Pavement. Assessment No. 126. Bond 6, Series 3, Installment 4, \$300.00.

North Fayette Street Sewer Extension. Assessment No. 123. Bond 5, Series 5, Installment 6, \$50.00.

Sandusky Street Pavement. Assessment No. 119. Bond 7, Series 7, Installment 8, \$400.00.

South West Street Pavement. Assessment No. 118. Bond 19, Series 7, Installment 8, \$1,000.00.

West College Street Pavement. Assessment No. 124. Bond 21, Series 7, Installment 8, \$300.00.

Chas. B. Graft, City Treasurer. Dated January 8th, 1916.

WILL ATTEND COMMITTEE MEETING.

William N. Hairgrove left last night for Chicago and today will attend the meeting of the democratic state central committee which will meet at the Hotel Sherman. Mr. Hairgrove is not a member of the committee but goes at the invitation and as a guest of Arthur W. Charles of Carmi, chairman of the committee.

SHANNON PLACED UNDER PEACE BOND

Fred Shannon who had a controversy with John Dunn Wednesday was before Justice Dyer Thursday. After hearing the case Justice Dyer was of the opinion that Shannon should be placed under a peace bond in the sum of \$100 to keep the peace for four months. Being unable to furnish the bond he was sent to the county jail where he will have an opportunity to meditate on the error of his ways.

DR. C. C. HARTE ADDS HER PRAISE

Prominent Springfield, Ill. Woman is Highly Pleased With Results.

RECOMMENDS TANLAC.

Prominent people of this state are daily testifying to the good which Tanlac, the "Master Medicine" that is being introduced in this city, has done for them and their friends. A statement of exceptional interest was made recently by Dr. C. C. Harte, who resides at 103 East Adams street, Springfield, Illinois. Dr. Harte said:

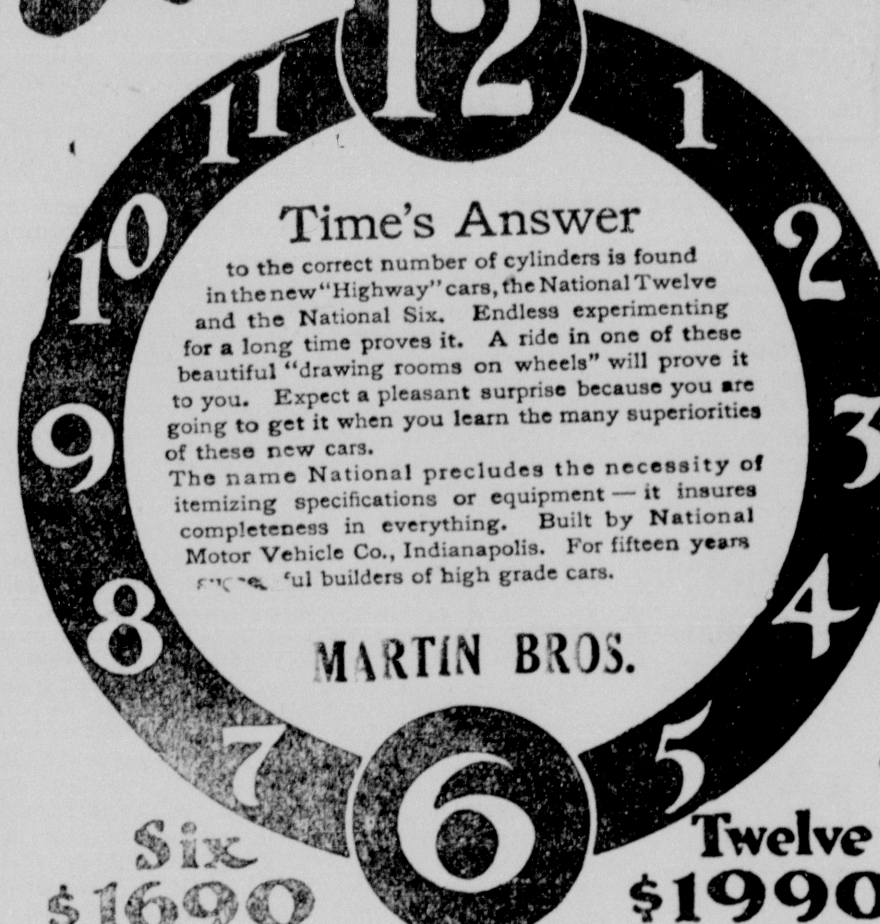

"I used Tanlac for nervousness and loss of appetite and am happy to relate that it has done me a wonderful lot of good. Before taking this excellent remedy I was extremely nervous, being unable to sleep with any degree of enjoyment and I was melancholy and irritable.

"I had very little appetite and the foods that I did eat didn't particularly agree with me. Since taking Tanlac however, the nervousness has vanished. I sleep soundly and arise in the morning feeling greatly refreshed. My appetite has improved wonderfully and I relish everything I eat. Tanlac in my opinion is an extraordinary medicine."

Scores of others in Illinois, like Dr. Harte, are obtaining relief by taking Tanlac. It is being used by thousands in this state with most beneficial results, for stomach, kidney and liver trouble, nervousness, catarrhal and bronchial troubles, loss of appetite and unsound sleep. For cases of debility and as a tonic for run down persons it is especially beneficial.

Tanlac, the "Master Medicine", is now being sold in Jacksonville at the drug store of Coover & Shreve. —Advertisement.

National Highway

Time's Answer

to the correct number of cylinders is found in the new "Highway" cars, the National Twelve and the National Six. Endless experimenting for a long time proves it. A ride in one of these beautiful "drawing rooms on wheels" will prove it to you. Expect a pleasant surprise because you are going to get it when you learn the many superiorities of these new cars.

The name National precludes the necessity of itemizing specifications or equipment—it insures completeness in everything. Built by National Motor Vehicle Co., Indianapolis. For fifteen years

BUSIEST TERM OPENS CASS COUNTY COURT

The January term of the Cass county court bids fair to be the busiest on record and for the first time in years Judge A. E. Martin, presiding, impanelled a jury in this tribunal.
The initial session of the court granted Mrs. William Manwaring of Beardstown her plea for divorce upon a charge of wife abandonment. The court prescribed that the husband should pay his wife \$8 a week for the support of his children.
The case of Ralph Bogard of Beardstown, charged with trespassing upon the property of the Sangamon Gun club, one of the shooting preserves along the Illinois river was tried.
Conditions are very similar in the circuit court, where an unusually large docket awaits the legal grist mill. Judge Harry Higbee, presiding, ordered a recess until Saturday at 10 o'clock.

WORLD'S MARKET NEWS

HIGHEST PRICES YET ON 1915 CROP ARE SCORED IN WHEAT

Reaction Follows and Close is Unsettled at 4 to 5 of a cent Net Advance—Other Leading Staples Show Gains.

Chicago, Jan. 13.—Highest prices yet on the 1915 crop were scored in the wheat market today, chiefly because of the cold wave. A reaction followed however and the close was unsettled at 4 to 5 of a cent net advance with May at 1.28 1/4 to 1.24 1/4 and July at 1.21 1/4 to 1.21 1/4.
Other leading staples too, all showed gains—corn 3/4 to 1/2; oats 3/4 to 1/2 and provisions 2 1/2 to 1/2.
The cold weather brought about active buying increased by predictions that the temperatures would increase likelihood of extensive damage to the winter crop. Besides, advices were at hand that British report requirements promised to be larger than expected.
Just before the close good supporting orders for wheat were encountered, and the final dealings a lively rally was taking place.
Corn like wheat touched a new high price level for the 1915 crop. Reports were received that drought had injured the Argentine crop 25 per cent. Provisions responded to a spectacular advance in the hog market. Specialists denied reports that cash provision sales were the largest on record.

COMPLETION OF POWER PLANT WORK PROMISES END OF FAULTY SERVICE

Little if Any Trouble Expected in Future by Jacksonville Railway & Light Co.—Erection of Switch Board to Begin Today.

It is the expectation of those in charge of the Jacksonville Railway & Light company that all of the recent troubles are now eliminated and that in the future there will be little if any trouble. Work has been in progress night and day at the power plant and it was expected that last night would see the completion of the work that will give the company four engines with a total capacity of 1500 horse power.

In addition to the above improvements a new switch board is being installed at the plant. This board is a twenty-four panel board and will cost exclusive of installation, \$5,000. The board will be in place within the next thirty days.

The steam plant at the power house that was erected during the past year is one of the finest in the state. It was constructed under the direction of W. R. Morrison, one of the Illinois Traction company's most expert construction engineers. It contains four boilers each with a capacity of 400 horse power. They are the most modern type, fed by duplicate twin pumps and each is capable of 150 pounds pressure. The boiler capacity is far in excess of the needs of the plant as one boiler will take care of the work during the day. It however, is the policy of the company to have reserve power in case of emergencies. The plant is equipped with a Westinghouse compressed air boiler cleaning system and frequent cleaning is an established rule in both the power and gas plant.

In the power plant are four engines. Two are of 500 horse power each, one is 400 horse power and one 300 horse power. The Corliss 300 horse power engine is capable of running the street car system while the others are used for general purposes and are held in reserve in case of accident. The engines are capable of producing 1,600 kilowatts.

The new switch board is being placed at the east end of the power house. An expert from the Illinois Traction is in charge of the installation and has numerous assistants. The new board is constructed so that if necessary all of the power generated may be used at once, being equipped with a synchroscope which enables all of the current to be turned into one channel if so desired. The board also carries a Terrell regulator which regulates and overcomes any variation of voltage before it goes to the service wires.

Materials for the switch board arrived Wednesday and will be transported to the plant today. G. W. Lapp, I. T. S. electrical expert, will be in charge of the installation and G. E. Anderson will be Mr. Lapp's assistant. N. A. Miner, an expert from the Riverton plant, left Thursday evening for Springfield to resume his duties. The territory supplied by the plant at Riverton was affected in worse degree by the storm than was Jacksonville and service in the Springfield territory is said to be suffering some of the troubles by which this city was visited a few weeks ago.

J. E. CLAUS is back to the tea store looking after his many friends and customers.

MORTUARY

Mosby.

Mention was made yesterday of the death of William Mosby at Chicago. The remains will arrive in Jacksonville this morning over the Wabash and a brief funeral service will be held at three o'clock at the home of Mr. and Mrs. S. O. Barr, 1299 West State street. Interment will be in Diamond Grove cemetery. Mr. Mosby left Jacksonville many years ago, and from a minor position with the John Church company, he rose in thirty-five years to the important office of superintendent and manager. He is survived by his mother, Mrs. Q. H. Chapin, one sister, Miss Ethel Mosby, and one brother, Harry Mosby, of Sioux City, Iowa.

The following account of the death of Mrs. E. L. Bagley, a former resident of Meredosia, is taken from the Quincy Journal: "Mrs. Lula Bagley, wife of E. L. Bagley, a well known conductor of the Wabash railroad, residing at 1130 Broadway, died Wednesday morning at 8:25 o'clock at St. Mary's hospital. Death resulted from paralysis, with which she was stricken a week ago last Saturday.

Mrs. Bagley was born in Meredosia and was 59 years of age. For a number of years she had been a resident of Clayton, from where the family removed to Quincy ten years ago. She was a member of the Methodist church and leaves a host of friends both here and in Clayton.

Besides her husband she leaves six children, Mrs. Roy Walton, Charles Gilbert, Norma, Portia and Duward Bagley, all of this city. She also leaves two grandchildren and one sister, Mrs. Reed of Poplar Bluffs, Mo.

Send for testimonials from this and other States. Dr. E. W. Hall, 225 Olive Street, St. Louis, Mo. Sold by druggists.—Adv.

JUSTICE IS RE-ELECTED HEAD OF CENTRAL ASSOCIATION

Justice Casts Deciding Vote With the Issue Deadlocked—Directors Question Right of Presiding Officer to Decide.

Burlington, Iowa, Jan. 12.—President M. E. Justice of the Central Association which held its annual session here today was re-elected president, he himself casting the deciding vote.

Burlington, Waterloo, Marshalltown and Muscatine voted in favor of Frank Norton, former mayor of Burlington for the office, while Mason City, Cedar Rapids, Keokuk and Clinton voted for Justice.

With the issue deadlocked President Justice claimed the right to cast a vote in the case of a tie and returned himself to office.

Keokuk posted her guarantee money today and this came as great surprise as that city was expected to quit the league. This apparently ends the chances of Rock Island or Fort Dodge to enter the league altho Keokuk's action may have been a political move to cast a vote for Justice, this having been strongly intimated. The so-called four-veteran rule was changed to read:

"That each club can play five veterans from any league the remainder of the club to be made up of players who have not had more than thirty games experience in a higher than Class D organization."

The right of President Justice to vote himself into office in case of a tie is questioned by Marshalltown and Waterloo and will be made the subject of a protest to the board of arbitration. The contemplated action is based on the alleged decision of the board in the case of Waterloo vs. The Three Eye League and of the decision of the Cook county, Illinois circuit court maintaining that a presiding officer has no right to vote in the matter of election of officers or the make-up of the league. This decision is alleged to have been upheld by the National Commission in the fall of 1910.

J. E. CLAUS is back to the tea store looking after his many friends and customers.

EARL HARMON IS COACHING BLUFFS TEAM.

The high school basket ball team has been practicing under the instructions of Earl Harmon from Jacksonville for the last two weeks. The money to pay the coach was contributed by a number of the business men. The high school boys certainly appreciate the interest these men have taken in their team and the substantial help given so willingly.—Bluffs Times.

MEDICAL SOCIETY DISCUSSES TREATMENT OF SYPHILIS

The treatment of syphilis was the general topic of discussion at the January meeting of the Morgan County Medical society, held Thursday evening at the Medical library. Dr. J. A. Ogram read a paper on "Secondary and Tertiary Symptoms" and Dr. George H. Stacy presented "The Pathology of the Initial Lesion and Its Treatment."

A profitable discussion followed the reading of the papers.

HALF OF LIFE'S WORRIES

with some people, are over wanting things they can't get—because of getting things they don't need. A SAVINGS ACCOUNT has "worked wonders" in such cases. You may start one here with one dollar; and by putting into it the "small change" you now carelessly spend, you will soon have a "snug sum" in the bank—earning COMPOUND INTEREST all the time.

NAPLES SCHOOL CASE TO HAVE AIRING SATURDAY

Dewey Quintal, Pupil in the Naples Schools, Swears Out Warrant Against Prof. Parrish.

Naples is all wrought up over trouble in the school there and the matter will be aired in court Saturday. From what we learn Prof. Parrish had trouble with one of his boy pupils, Dewey Quintal, a lad about 16 years of age, he became unruly and Prof. Parrish struck him and the lad fought back. In the melee that followed the teacher struck him on the head with a black-board compass, making a small scalp wound.

Mr. Quintal came to Bluffs and made a complaint before Esquire Korty and the hearing is set for Saturday.

There is all kinds of talk both pro and con, but when it is all over the greatest damage will likely result to the school thru a division of its patrons.

While the teacher may have been more severe than necessary, the boy certainly is not blameless, and from reports deserved punishing, and at the same time a matter of this kind in court neither helps the lad or school—Bluffs Times.

NEW LAW GIVES SHERIFF MORE POWER.

Can Cut Term of Prisoner With Good Behavior Record.

Sheriff Graff now has the power to commute the sentence of any prisoner in the county jail according to the law which was passed by the last legislature. The power of sheriffs are akin to those of the state board of pardons regarding penitentiary prisoners. The law says:

"Every prisoner who shall hereafter be confined in a county jail on a fixed term of imprisonment and who shall perform the duties, services and work assigned to him or her by the jail man in an orderly and peaceable manner and who shall have no infraction of the rules and regulations of the jail or any further violation against him shall be entitled to diminution of sentence as appears in the following table for the respective month of imprisonment:

"One month two days, two months four days, three months six days, four months, eight days, five months ten days, six months twelve days, seven months fifteen days, eight months eighteen days, nine months twenty one days, ten months twenty-four days, eleven months twenty-seven days, twelve months thirty days."

SUES FOR ALIENATION OF AFFECTIONS.
W. N. Hargrove went to Chicago last night where he will be associated with James H. Ward in the prosecution of the suit of H. A. Winters of Mt. Sterling against Benjamin Cohn, of the firm of Cohn & Son. Winters is asking \$25,000 for the alleged alienation of his wife's affections. According to his charge his wife deserted him and their two children on account of Cohn's attentions. Mr. Hargrove recently filed a divorce suit in Brown county in behalf of Mr. Winters.

WARRANT OUT FOR ARREST OF LOUIS WILSON

Claim He Swore Falsely About Mulatto Girl Thirteen Years Old Whom He Married Last Friday.

As a sequel of the marriage of Louis Wilson and Mary Ella Camp both of Arnold, which was performed by Justice Dyer in his office Friday, January 7, a warrant was issued for Wilson Thursday. The warrant was sworn out by Thomas McDaniel colored, who resides in the vicinity. The warrant was given to Deputy Sheriff George Stice who went to Arnold Thursday afternoon. When he arrived he found that Wilson had made his getaway. It is said that he is in Iowa and that he expects to send for his wife when he gets located.

The cause for the warrant for Wilson came about by his giving the age of the Camp girl to the county clerk as 19 years. When Justice Dyer performed the ceremony and began to fill out the back of the license the girl gave her age as 13 years. The recent change in the Illinois law regarding the issuance of marriage licenses makes it a misdemeanor for a person to swear falsely to the application. This Wilson did. The father of the girl was present at the time but did not take any part in the transaction and Wilson's friends are of the opinion that he gave his consent by his silence. However, it is customary for the parents to make application for the license in case either party is under the legal age.

Wilson is white man and the Camp girl is a mulatto. There seems to be some feeling in the matter in the neighborhood in which the parties live. Wednesday evening someone called up state's attorney Robert Tilton and asked him what he was going to do in the matter. Mr. Tilton told the party that a warrant would be sworn out by McDaniel and would be served as soon as it was delivered to the sheriff. When Mr. Tilton asked who was talking the party at the other end hung up the receiver.

CONSCIENCE STRICKEN; PAYS RAILROAD CO.
The Alton Daily Telegraph relates a curious tale of how a conscious stricken personage thus made restitution to an Alton merchant whom he had defrauded:

"About 2 years ago when P. H. Paul was conducting a drug store on East Second street, he learned recently, some one entered his store and helped himself to some candy. This event was noticed at the time. Recently Mr. Paul received a letter from the visitor of 22 years ago, enclosing \$1 in which the sender said that his conscience had been troubling him since he had made a change in his way of living after the Biederwolf campaign in Alton. The letter badly misspelled and poorly written, was as follows:

"Onet whin I was to your store in e secont I lifted some candy and I never did feel just rite over it. so here is the price I guess you are the rite one who was down to B-Fairig if you arnt give it to the other ones. I dont lift no more I got religion from Biederwolf I didn't no which was you or I wanted to send it sooner."

JOINT COUNCIL OF NURSES' AND ATTENDANTS' UNION MEETS HERE

Forty Employees of Jacksonville State Hospital are Added to Membership in Course of Two-Day Session—A. F. of L. Organizers Speak.

The Joint Council of the Nurses' and Attendants' union of Illinois closed a two day meeting at Jacksonville State hospital Thursday afternoon. The sessions were very successful and the council representatives were outspoken in their praise of the reception accorded them by the hospital management. About forty nurses and attendants were added to union membership during the sessions.

The members of the council present were: Henry Swartz, Dunning; William Jones and Miss Kathryn Thomas, Dunning, state organizers; George A. Neal, Elgin State hospital, secretary of the council; W. M. Garrett, vice president, Watertown State hospital; Lee Adams and Miss Wilhelmina Smith, Lincoln; H. B. Johnson, Kankakee; Floyd Davis, Jacksonville; J. Hogan and Miss A. Morgan, Peoria; Miss Anna Alsfield, Anna State hospital, and Emmett A. Flood, Chicago, organizer for the American Federation of Labor.

Thursday evening Dr. Wright of the State Hospital Medical staff took dinner with the council at the Hotel Douglas. Thursday at noon the members of the council were guests of Dr. Hill, superintendent of the hospital.

Floyd Davis, president of the Jacksonville local and Roy Butcher, former member of the council, were actively at work during the council sessions for success of the meeting.

The next meeting of the council will be held at Peoria State hospital the last week in January. A series of meetings have been arranged for each of the state institutions having membership in the union. The one at Jacksonville is the second of these, the first having been held recently at the Lincoln State School and Colony for the Feeble Minded. The sessions at Lincoln were very successful and a number were added to union membership.

The Nurses' and Attendants' union was organized in the summer of 1914 and the eighteen months of its existence have seen many improvements in hours and conditions of work of state hospital employees. General orders have been issued by the state board of administration putting into operation the eight hour day, one day's rest in seven has been guaranteed each employee and according to statement of a state organizer, "no organization with membership in the American Federation of Labor has accomplished so much in a given time as has the Nurses' and Attendants' union of Illinois."

Sessions were held at Jacksonville State hospital during the day Wednesday and Thursday. Wednesday evening a mass meeting of employees was held in the amusement hall. Addresses were made by W. M. Garrett and Miss Kathryn Thomas.

AMERICAN DOCTOR SAVED

ONLY SWORD FROM SERVIA

Cleveland, O., Jan. 13.—With nothing to show but a battered sword and a soiled shirt, Dr. Richard L. Letts of this city is home from Servia. But what he lacked in baggage he made up with stories he has to tell of the war zone, not the least interesting of which was how it happened that he got away at all. Dr. Letts was serving in a British Red Cross unit in Servia. His last hospital was at Piro, and it was there that his troubles began. When the Bulgars and Teutons poured across the Serbian border, sweeping all before them, the dangerous task of removing the wounded fell upon Dr. Letts and his associates. They arranged for the transportation of the wounded and to do what was in their power to save their lives. It was a case of moving the moving quickly. Every way of conveyance was used to get the patients to the border of Greece. Dr. Letts caught up his sword and came out with only the clothes he had on.

PLAN JACKSONVILLE LOCAL OF ORDER OF GIDEONS.

E. L. Vogel of Chicago, president of the Illinois Gideons, was in Jacksonville Thursday interviewing Christian traveling men of the city with a view to organization of a branch of the order. The Gideons are organized in all sections of the country and their work of placing Bibles in the guest rooms of hotels is well known.

E. L. Kitzer will have charge of the preliminary organization work here and it is suggested that traveling men interested see him at an early date.

NOTICE.

The annual installation of officers of Rebekah lodge No. 13 will take place this evening. Refreshments. Grace L. McCarty, N. G. Edna Colby, Sec.

ASSISTED IN CASES.

Walter W. Wright is one of the young lawyers of the city who appeared in the cases at the county court just closed. He assisted State's Attorney Tilton in the examination of jurors and showed good ability and his arguments to the jury were also convincing. Mr. Wright is a former resident of Franklin and is now in the office of Judge M. T. Layman.
